AUBURN ALUMNI ASSOCIATION

NOVEMBER-DECEMBER, 1970

AUBURN, ALABAMA

At Board Of Trustees Meeting—

AU Announces Fine Arts, Fisheries Building

The most important event of Homecoming week-end—at least as far as the future of Auburn is concerned—came as a part of the earliest events. At the meeting of the Board

of Trustees on Friday, Oct. 23, President Harry M. Philpott announced plans for a Fisheries Building and the first phase of a Fine Arts Center.

The two buildings will be made possible through an allocation of \$2,925,000 from the State Public School Building Authority. The university is allo-

cating \$1 million to each of the two new facilities and using the other \$925,000 to renovate and air condition the remaining major classroom buildings on campus.

The proposed building for the Fine Arts Center will be located on Samford Avenue near Graves

Amphitheatre. The initial structure will house the Department of Theatre. A 400-seat theatre will be located on the ground floor. The first floor will consist of a garden and outdoor lobby and three classrooms. The second floor will contain nine offices, two galleries, a rehearsal room, and areas for projection, sound equipment and other properties.

Long-Range Plans

Long-range plans for the Fine Arts Center involve facilities for other departments of the School of Architecture and Fine Arts. Architects are Northington, Smith, Kranert & Associates of Huntsville.

The Fisheries Building is the first part of a long-range plan

for a Fisheries and Wildlife Complex. The initial building will be a three-story structure designed so that two additional wings can be added when funds are available.

The building will contain some 25,000 square feet of floor space. It will have one classroom for approximately 50 students and 22 laboratories for research and study in Auburn's international fisheries program.

Architect for the Fisheries Building, which will be located at Samford and Mell, is the firm of Kirkland, Woodham & Associates of Montgomery.

Bids In January

The University plans to let bids for the construction of the two new buildings in early January.

They should be ready for occupancy by the fall of 1972.

Other action of the Board included an increase in fees for students of veterinary medicine by \$50 per quarter beginning next summer. Dr. Philpott told the Board that the School of Veterinary Medicine when it moves into its new quarters will need approximately \$200,000 more funds per year for its operation. The University will provide \$140,000 and the fee increase will take care of the balance. Dr. Philpott noted that veterinary students do not pay out of state fees and also that a survey of the other veterinary schools shows that none have lower fees and many have higher.

'Tube' Adds Spirit—

Alums Visit and Reminisce

Despite the rain and Auburn's first football defeat on a Homecoming day in 18 years, there were some good things about Homecoming 1970. Numerous old friends got together in the organized class reunions and the unorganized alumni ran into people they hadn't seen in years.

Of the organized activities centering around the Alumni Office was the 50th reunion of the class of 1920 and the annual business meeting of the Auburn Alumni Association. At the meeting, alumni elected James M. Brown, Jr., '46 of Birmingham to a second term as alumni president.

Elected to serve with him on

the Association's executive committee were William S. Flanagan '47 of Nashville, vice president of Genesco; John S. Langford, Jr., '53 of Atlanta, presiding judge of the Fulton County Juvenile Court; and Dr. Lloyd Nix '59, a Decatur dentist. They will serve a two-year term.

Other members of the executive committee, now in the second year of their term, are Dr. Ralph R. Beauchamp '47 of Gainesville, Fla.; Morris W. Savage '58 of Jasper; and Dr. Cecil S. Yarbrough '42 of Mobile. J. Gilmer Blackburn '50 is ex-officio member.

Tablecloth Gift

Early in the morning of Homecoming, Mr. William L. Sims, II, '20 presented a hand-made banquet table cloth to the university. Valued at \$10,000, the tablecloth is believed to have been made during the 19th century in the Black Forests of Germany. Mr. Sims gave the tablecloth to Auburn in memory of the late Dr. Ralph B. Draughon, former Auburn president.

'Tube' Adds Zip

The traditional campaign for Miss Homecoming gained new life when a male entered the campaign. Dick "Tube" Chambliss entered the contest to give the 33-year-old race some spirit. And he succeeded. He gained hearty support, approval, and votes from Auburn students. But a little rule saying that the Homecoming royalty must be female, prevented him from receiving the traditional red roses. However, he did get a crown and special attention from the Homecoming Pep Rally crowd on Friday night. Miss Homecoming was Becky Lilly of Little Rock, Ark. She is a sophomore. Her court consisted of Emily Gillespie of Atlanta, Pam Harrison of Winston-Salem, N.C., Fay Henderson of Stone Mountain, Ga., and Dee Lee of Pompano Beach, Fla.

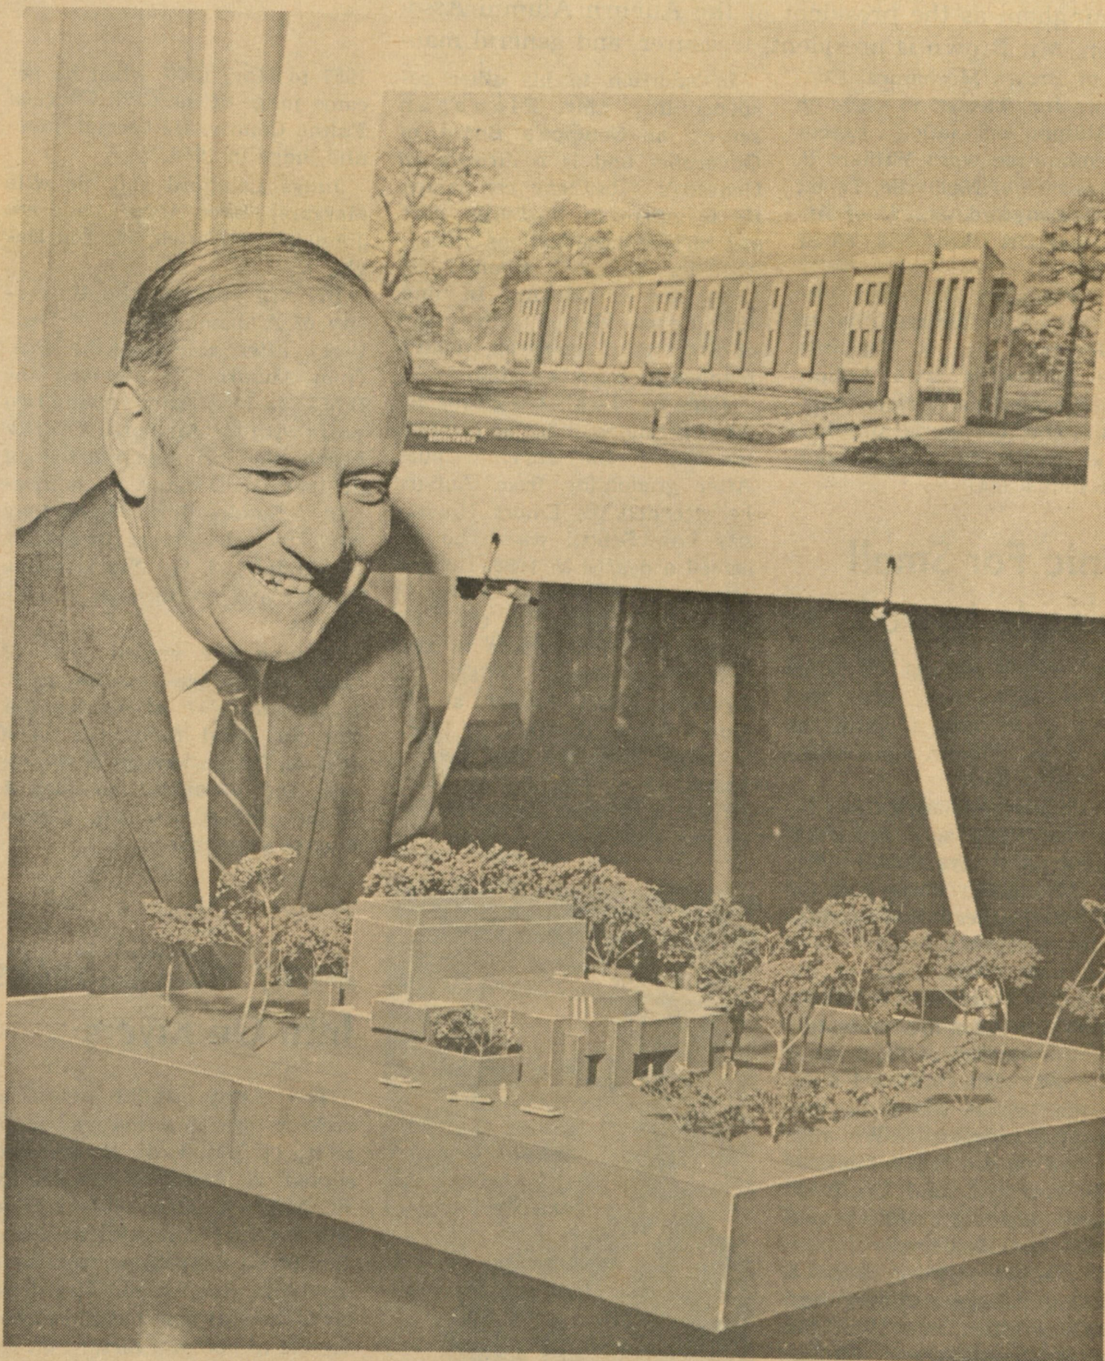

Engineering Award Goes To Gottlieb

The Alumni Engineering Council has presented its "Distinguished Auburn Engineer" award to Leon Gottlieb '22 of Columbus, Ga. Frank M. Malone '28, retired president of Southern Bell and Chairman of the Council, presented the award at the Homecoming luncheon on Oct. 24. Mr. Gottlieb is executive vice president of Wright Contracting Co.

Mr. Gottlieb graduated from Auburn with highest honors in civil engineering and received the first award for the best civil engineering thesis. He was associated with the Alabama Highway Department until World War II where he served with the Corps of Engineers in Europe, receiving the D-Day Landing Arrow, three Silver Star Medals, the French Croix de Guerre with silver leaf and other awards.

He joined Wright in 1945 upon his discharge from the army and has been executive vice president and a director for a number of years. His work has included highway and airport construction in numerous foreign countries.

In 1965 Mr. Gottlieb established the Gottlieb Professorship in Civil Engineering at Auburn in memory of his two brothers the late Sam Gottlieb '33 and Jacob Gottlieb '21, who were both engineering graduates from Auburn.

BUILDING FOR THE FUTURE—Auburn President Harry M. Philpott announced plans at a recent Board of Trustees meeting for two new buildings on the main campus. The model is the first phase of a Fine Arts Center and will contain an auditorium and other facilities for the Department of Theatre. At upper right is an architects' rendering of the proposed Fisheries Building which is part of a long-range plan for a Fisheries and Wildlife Complex. Auburn has received \$2.9 million from the State Public School Building Authority and \$1 million is being allocated to each of the two new buildings. The remaining \$925,000 will be used to improve existing buildings.

ALUMNI ELECT—James M. Brown, Jr., of Birmingham, right, was re-elected president of the Auburn National Alumni Association recently. Dr. C. Lloyd Nix of Decatur, left, was one of three new members elected to the executive committee. Others, not shown, are Judge John S. Langford, Jr., of Atlanta, Ga., and William S. Flanagan of Nashville, Tenn. Members serving their second year on the committee are Dr. Ralph R. Beauchamp of Gainesville, Fla., Morris W. Savage of Jasper and Dr. Cecil S. Yarbrough of Mobile.

Alumni Re-Elect Brown

On Oct. 24, Alumni re-elected James M. Brown '47 of Birmingham as the president of the Auburn Alumni Association. Mr. Brown is president, treasurer, and general manager of Brown Mechanical Contractors Inc. Elected to serve on the Alumni Association's executive committee were William S. Flanagan '47 of Nashville, Tenn.; John S. Langford, Jr., '53 of Atlanta; and Dr. Lloyd Nix '59 of Decatur.

Mr. Flanagan is group vice president of the apparel division of Genesco, Inc. of Nashville. Since graduating from Auburn he has served in various engineering and managerial positions in the textile, knitting, and apparel industries.

Clinic For Small Animals Moved

The Small Animal Clinic at Auburn University has been moved to its new facilities on Wire Road between the campus and Interstate-85.

Clinic hours remain the same—from 8:30-11:30 a.m. and 1:30-4:30 p.m. Mondays through Fridays. Emergency cases may be admitted at other hours by ringing the emergency bell.

The new clinic, part of the School of Veterinary Medicine complex, provides approximately twice the amount of floor space as the old, with expanded areas for examination, diagnosis, surgery and recovery. "We now have one of the finest facilities in the country," said Dr. B. F. Hoerlein, head of Small Animal Surgery and Medicine.

The facility also contains a clinical pathology and radiology laboratory which serves both the Large and Small Animal Clinics.

The new Small Animal Clinic connects the Large Animal Clinic and the two-story basic science building which will complete the school complex. Work is nearing completion on the basic science building.

Judge Langford . . . Elected

In addition to his other responsibilities, Mr. Flanagan serves on Genesco's Board of Governors and is a director of Genesco's subsidiary companies. He is active in Nashville civic and service organizations including the National Council on Crime and Delinquency. In June, 1969, he was elected to the board of directors of American Apparel Manufacturers Association.

John S. "Jack" Langford, Jr., '53 is presiding judge of the Fulton County (Ga.) Juvenile Court. After graduating from Auburn he attended the Emory University Law School where he received a degree in 1958. He also attended the National College of State Trial Judges at the University of Pennsylvania in 1967 and the National College for Juvenile Court Judges at the University of Colorado in 1968.

Judge Langford has been a special agent with the Air Force Office of Special Investigations. He practiced law in Atlanta from

In Memory Of Dr. Draughon—

W.L. Sims, II, Presents Rare Tablecloth

The exquisite artistry of handwork as practiced in the Old World soon will be displayed in the Ralph Brown Draughon Library. The banquet-sized tablecloth of linen and handmade lace is the gift of W. L. Sims, II, '20 of Orlando, Fla. Mr. Sims, a retired president of Colgate-Palmolive-Peet Co., presented the cloth to the University in memory of the late Ralph B. Draughon, former president of Auburn.

According to Mr. Sims, the tablecloth was appraised in 1959 at a value of \$10,000. It is believed to have been made in the Black Forest area of Germany during the late 19th century, perhaps by nuns.

Medallions of embroidered linen are set into the hand-made lace of the tablecloth. Two of the medallions feature matinee concerts by Schubert and Liszt. The others have operatic motifs with the names of the operas and their composers, and in many cases, a cameo likeness of the composer.

The scenes are from: *The Marriage of Figaro* by Mozart, *Faust* by Gounod, *Carmen* by Bizet; *Eugen Onegin* by Tchaikovsky; *Fidelio* by Beethoven; *Les Huguenots* by Meyerbeer; *Der Rosenkavalier* by

1957 to May, 1966, when he became judge of the Civil Court of Fulton County. He became juvenile judge in 1968.

Judge Langford and his wife Margaret have three children: John, III, 12; Ellen, 11; and David, 6.

Dr. Nix attended the University of Alabama School of Dentistry after receiving the B.A. from Auburn. He received the D.M.D. in 1963. After serving two years with the Air Force, Dr. Nix began the private practice of dentistry in Decatur. He is married to Sandra Ross '60 and they have two daughters Denise, 6, and Natalie, 3. Dr. Nix is active in civic and professional organizations.

Serving the second year of their terms are Dr. Ralph R. Beauchamp '47 of Gainesville, Fla., Dr. Cecil Yarbrough '42 of Mobile, Morris Savage '58 of Jasper, and ex-officio member J. Gilmer Blackburn '50, former alumni president.

Army ROTC Seeks Info On Rivers

The Army ROTC office is seeking any information on a photo of Maj. E. R. Rivers who served as head of the Army ROTC at Auburn 1881-82. The ROTC Office is making a collection of all the officers who have served at Auburn and Maj. Rivers is the only one they have been unable to obtain a picture of. About all the information they have about him was that he was originally from Alabama. The ROTC office would appreciate hearing from anyone who has a photograph or any information where a photo might be obtained.

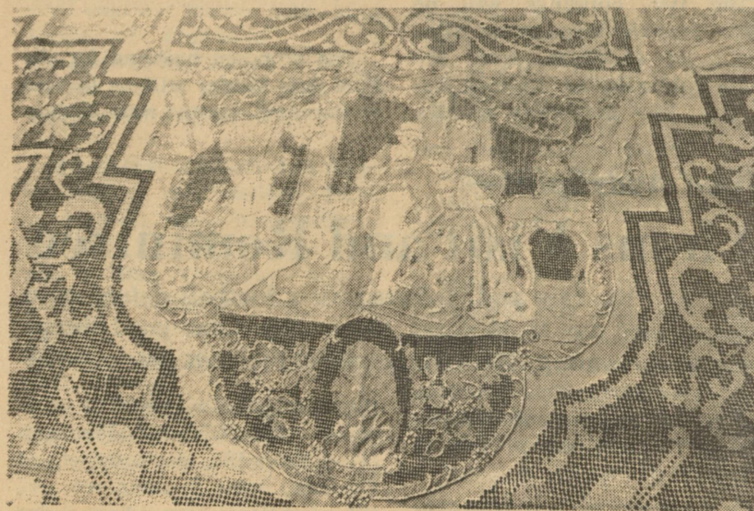

R. Strauss; *Rigoletto* by G. Verdi; *LaBoheme* by Puccini; *The Barber of Seville* by G. A. Rossini; *Manon* by Massenet; *Cavalleria Rusticana* by Mascagni; and *Martha* by Flowtow.

The delicately embroidered operatic characters are distinct and often definable. Throughout the scenes are embroidered flowers and garlands. The music motif is repeated in the lace between the medallions and around with border with violins, drums, and trumpets lending orchestration for the operatic scenes.

The trumpets, roses, and garlands are repeated in the corners of each of the 12 linen napkins which complete the set.

Mr. Sims, who was accompanied to Auburn for the presentation by his sister, Mrs. Minard F. Miller of Lakeland, Fla., requested that the tablecloth be displayed in the library "so that students and friends of the University can become acquainted with the artistry in stitchery."

President Harry M. Philpott, accepting the gift on behalf of the University, said it will be displayed as soon as a suitable case can be arranged for it.

A DETAIL—A closeup detail of a Mozart opera in the 19th century handmade tablecloth.

RARE WORK OF ART—A valuable hand-embroidered banquet tablecloth depicting scenes from leading operas and believed to have been made during the 19th Century in Germany has been presented to Auburn in honor of the late Dr. Ralph B. Draughon, former Auburn president. It is a gift from W. L. Sims, II, '20 of Orlando, Fla., right. In background are Auburn President and Mrs. Harry M. Philpott who accepted the gift for the University and Mrs. Minard F. Miller of Lakeland, Fla., Sims' sister.

THE AUBURN ALUMNEWS

M. W. Smith Hall Completes Forestry Facilities

The dedication of the new forestry building on Nov. 19 marked the completion of the modern facility which was begun 22 years ago. The first wing of the building opened in 1948, and the second wing opened last summer while the original wing was being renovated and air conditioned.

The entire unit has been named the M. White Smith Hall in memory of the forest industry leader who operated mills at Jackson, Whitley, and Camden. Mrs. M. White Smith, wife of the late Mr. Smith, participated in the ceremony. Mr. Smith was instrumental in organizing the Alabama Forest Products Association and served as its second president. He was also president of Southern Pine Association, and of Quality Southern Pine Producers Association. The M. White Smith Foundation contributed significantly to the construction of the new wing and to the renovation of the original forestry building at Auburn.

The new wing contains the A. S. Mitchell Laboratory for photogrammetry (the process of making maps from photographs, especially aerial photographs) and cartography; laboratories for physiology, genetics and pathology; and includes offices, a seminar room, and a student lounge. Renovations to the original wing include new lighting, painting, air conditioning, ceilings, and modernization of the offices of Prof. W. B. DeVall, head of the Department of Forestry.

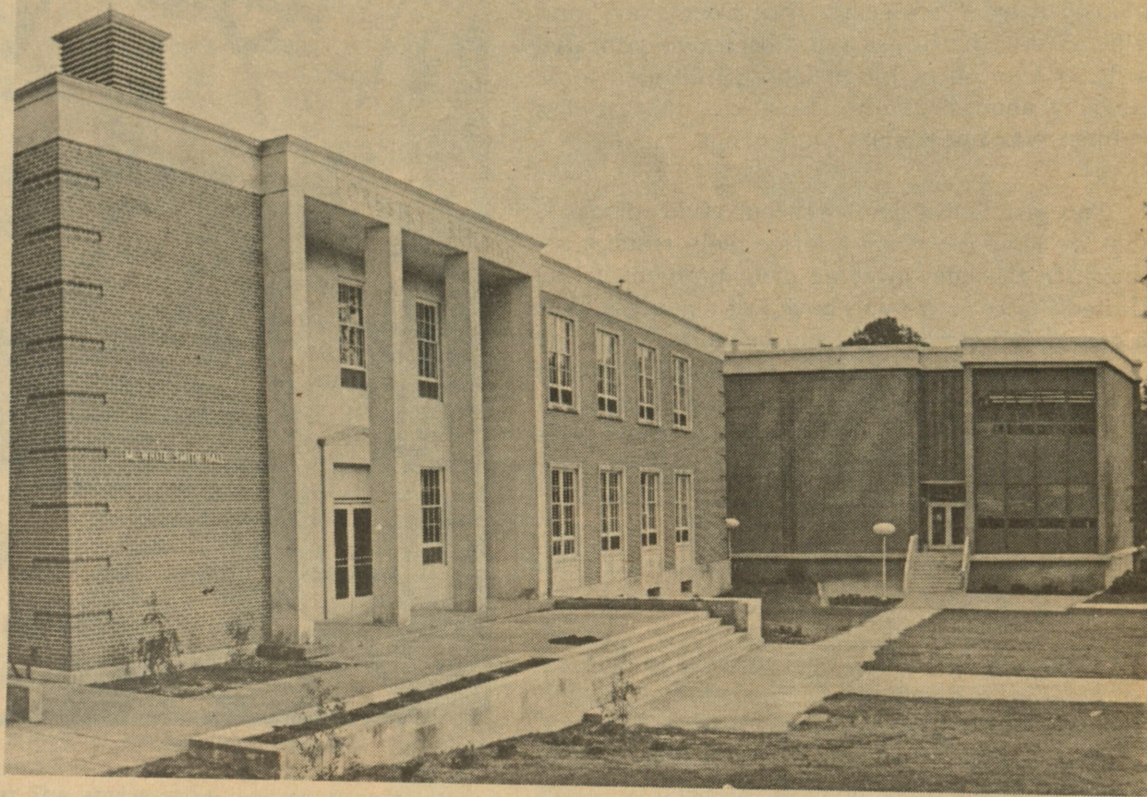

A major portion of the funds used in construction and renovation was provided by the 1965 State bond issue. Additional

funds were contributed through the Alabama Forest Products Association and the Auburn Forestry Alumni Association.

Dr. Harry M. Philpott presided at the ceremony, and Frank P. Samford, vice chairman of the Board of Trustees, dedicated the building. Jack Warner, president of Gulf States Paper Corp., spoke at the luncheon. Before and after the dedication forestry students conducted tours of the new facilities for the guests.

The Department of Forestry began in 1927 as an experiment in growing southern pines to control erosion. Today the Department offers degrees through the doctorate. With support from the forest industry of Alabama, Auburn received its first appropriation from the Legislature in 1945 to develop instructional and research programs, and to build the first unit of the building. More than 500 bachelors and 28 master's degrees have been awarded in forestry since the first classes were begun in 1948. The doctoral program began in 1968.

Research has developed from \$80 during the department's first year to approximately \$300,000 with 21 full-time and part-time personnel involved in 26 projects. The forestry program of the Agricultural Experiment Station and School of Agriculture was further strengthened in recent years with the location here of the Auburn Forest Engineering Services Laboratory by the

FORSTRY BUILDING — The newly-expanded building housing Auburn University's Department of Forestry was dedicated Nov. 19 in memory of the late M. White Smith who was a leader in the forest industry and a strong supporter of the for-

estry program at Auburn. The original unit of the building, at left, was built in 1948. The second unit was completed last summer and has been in use while the rest of the building was renovated and air conditioned.

Southern Forest Experiment Station, U.S. Forest Service.

GIFT—The Thiokol Chemical Company has given \$500 to the Department of Engineering for the purchase of equipment in civil engineering. The equipment will be used in studies relating to environmental problems.

DIRECTOR VISITS—Dr. Lester Eugene Asheim, director of the office for library education of the American Library Association, recently reviewed the newly-organized Department of Educational Media in the School of Education. He also visited Ralph Brown Draughon Library. Dr. Asheim is the ALA's chief education officer.

SENATOR SPEAKS—U.S. Sen. John Goodwin Tower made a public address in Langdon Hall in November, sponsored by the Auburn Veteran's Association. Senator Tower serves on three major committees—Armed Services, Banking and Currency, and the Joint Committee on Defense Production.

TAPPED — Omicron Delta Kappa, national men's honorary fraternity, tapped 22 junior and senior men for membership. Selection for ODK is based on overall grades and leadership activities. The new members are: Dan Bianchi of Fairfield; Dan Bush of Auburn; Chuck Coddling of Birmingham; Bob Donnell of St. Louis, Mo.; Ken Farmer of Pittsburg, Pa.; Bruce Henderson of Prairie; Lamont Henderson of Gadsden; Ronnie Horton of Andalusia; Sharpe Johnson of Auburn; Geoff Ketcham of Birmingham; Mike Kinard of Andalusia; Phil Kirk of Ft. McPherson, Ga.; Jerry Loftin of Manchester, Ga.; Rob Lofton of Pineville, La.; Hugh McCampbell of Auburn; Jody McClinton of

Jackson; Nichols of Birmingham; George Nunn of Fairfield; Bert Price of Birmingham; Charles Smith of Newton; Jim Spivey of Ozark; and Jimmy Tucker of Auburn.

DRUG ABUSE SEMINAR—On Nov. 18 the Alabama Pharmaceutical Association and the School of Pharmacy sponsored a drug abuse seminar on the pharmacist's role in drug abuse education in the community. Dr. Kenneth Waters, dean of the School of Pharmacy at the University of Georgia, made the keynote address. Participants discussed presenting drug abuse information to youngsters; the effects, symptoms, and therapy for amphetamines, heroin, LSD, and marijuana; and how community pharmacists can help patients with health problems.

SIGMA XI LECTURER — Dr. Geoffrey R. Burbidge, an astronomer and physics professor at the University of California in San Diego, made the Sigma Xi lecture on Nov. 17. He spoke on "Quasars." Dr. Burbidge is the national lecturer for Sigma Xi and its affiliated society, the Scientific Research Society of America.

PROFESSOR APPOINTED — Dr. Chester C. Carroll, head of the Department of Electrical Engineering, has accepted an appointment to the National Academy of Sciences' Advisory Committee on Data Processing Systems. The Academy is a private, non-profit institution, providing the advisory services at the request of the Army. Members of Academy's advisory committees and panels serve without compensation as individuals contributing their personal, scientific, and technical knowledge. They are selected from leading universities and industries throughout the nation.

STUDENT MEMBER—Auburn University is one of three schools across the nation to provide a student member for the National Education Committee of the Industrial Designers Society of America. Industrial design students elected Jerry Priester, a senior in industrial design from Memphis, Tenn., to represent Auburn.

INTELLIGENCE—Dr. William A. Mason, professor of psychology and head of the Behavioral Sciences Division of the Delta Regional Primate Research Center at Tulane University spent Nov. 17-18 at Auburn. He came to Auburn under the auspices of Psi Chi, national honor society in psychology. Dr. Mason's public lecture concerned a biological perspective of early deprivation and the development of intelligence.

VETS MEET—Thirteen visiting speakers and 11 staff members appeared on the program of the 63rd Auburn University Veterinary Medical Conference on Nov. 15-17.

SPECIAL—Auburn is developing special communication media in an effort to better educate the mentally-retarded and physically-handicapped children in Alabama's public schools. Slides, films and audio materials will be developed especially for them. Dr. Jack Sink, who specializes in rehabilitation education, explains that with the new methods children might learn such things as what jobs are available for them and how to select clothing. A blind person might learn how to read braille through the use of audio materials. The communication media is being developed in the School of Education under a \$10,000 grant from the Alabama

(Continued on page 5)

LEACH PORTRAIT—A portrait of the late Edmund Leach '15, Montgomery investor and former president of the Auburn University Foundation and the Auburn Alumni Association, was unveiled Nov. 14. With the portrait are his widow, Mrs. Margaret Leach, and the artist, Maltby Sykes, Alumni Artist in Residence. The portrait will hang in the Leach Nuclear Science Center on the campus.

Editor's Column—

Ten Years Is Not A Long Time

by Kaye Lovvorn '64

The main article in a current magazine is ominously titled "Ten Years Until Doomsday," and when I saw the title, having been oversaturated with articles on pollution lately, I decided to be ostrichy about that one. However, the article's subject was not ecology, but drugs.

The gist of the well-written, vivid article is that we have ten years to effectively reach a solution to the ever-growing drug problem in the United States or we will have lost a generation—a generation stretching from beyond college age to their high school (where the problem seems to be greatest), junior high, and even *elementary* brothers and sisters, not to mention their children who may be handicapped and deformed by the drugs their parents have used.

Ten years is not a long time, and perhaps the older one becomes the shorter a time it seems.

Ten years ago nobody got upset if girls wore pants to school and the earth-shaking question of a boy's hair length had not been thought of. The main high school problems—besides getting the kids to do their homework—seemed to be keeping students from running in the halls, and punishing those who read comic books, cut classes, or threw paperwads.

Admittedly my rural Alabama high school lacked the sophistication of the bigger city schools in many ways. But not all. Smoking cigarettes went on at recess and lunch out by the coalpile or the pumphouse at the back of the school. It was rumored that a few of the boys were acquainted with the beverages that sponsored the TV boxing and wrestling matches, although it was commonly assumed that such knowledge belonged only to the outer fringes of drop-outs or general neer-do-wells.

As for drugs, well, maybe we had heard of them but they were as far from our lives as the Great China Wall. Some of us—I for one—knew that there were such things as bennies—pills that truck drivers took to make them stay awake. Because my good friend's father ran a trucking company, she and I knew most of the young truck drivers.

However, the idea of "seeing pink elephants coming down the highway," as one of my truck-driving friends described the result of taking pills and driving hour after hour without sleep, held no appeal for us.

Ten years is not a long time. The changes could not have been as drastic and as widespread as speakers and articles have lead us to believe.

So despite all the articles I have read, despite all the worried parents I have talked with, despite all the general conversations on drugs that I have overheard and participated in, despite all the speakers I have heard on campus, and despite even my interview with Dr. Carl Hester a few months ago, the magnitude of the drug problem facing us had not truly hit me until a few weeks ago.

On a bright, beautiful fall day I went back to that North Alabama mountain area where I grew up to act as a consultant on journalism for a teachers' workshop. When we were introduced, among the consultants on reading, on math, on English, on first grade, on biology, was a consultant on drugs.

A consultant on drugs? Here? Where ten years ago cigarette smoking and playing hooky were the big outside problems facing teachers? The idea that a need for a consultant on drugs in this rural—and in some ways seemingly idyllic—area was incomprehensible. So incomprehensible in fact that in my group I doubtfully asked questions about drug use, expecting to be assured of the lack of need for a drug consultant here.

Instead, I learned of high schoolers who were known to be or suspected of using drugs. I learned of children not yet teenagers, brothers, one who is dead and one who lies like a vegetable, aged 10 and 12, as a result of sniffing glue or taking LSD (the substance is not really known but definitely chemical brain decomposition of that sort caused by LSD or the offshoot of drug use, glue sniffing occurred.)

No, ten years is not a long time, but it was the whole of a child's life.

It is past time for us adults to put away our childish pre-occupation with judging others by their hair, beard, and clothes and to put that same nit-picking energy into educating ourselves and the children around us about drugs.

Cutting all the hair, shaving off all the beards and mustaches, and clothing all the girls in shirt-waist dresses won't take drugs away or remove their menace. If it would, then the hullabaloo over dress and hair might be logical. However, as it is, we strainingly swat at a gnat while a herd of camels tromps in with no resistance.

All the long-haired kids don't use drugs, all the short-haired kids don't abstain from them. Permanent brain damage or death is no respecter of person. It comes to the short-haired boy as to the long. Heroin addiction demands are as strong on the girl clothed in a \$100 dress as the barefooted girl wearing bell-bottoms and beads.

We can little afford further salving of our consciences with persecution of the young. It is past time for condemning, arresting, and jailing the users. Had that tactic been successful the problem would not have mushroomed. But perhaps a little persecution of the adult profiteers, comfortable in the respect that money buys—even money from selling LSD and heroin—, will have some result.

Ten years is not a long time, but it may be longer than we have.

Here and There—

Come Back Joshua

by Jerry Roden, Jr., '46

Unmindful of the late hour and biting wind that ruffled his thin, graying hair, the old man walked the hills dimly lit by a waning moon. His world lay scattered in broken shards about feet that would not slacken to the rate of his aging pulse but sought eagerly to maintain pace with the soaring wings of his spirit.

Somewhere at the sane and rational level, he knew that what was done could not be undone, that the end had come, that there was no more time for dreaming. Yet deeper within, visions of springtime and fair meadows blossomed on, beyond the reach of nipping frost, untouched by the onset of chaos.

Between those extreme levels of consciousness, between the brink of despair and the fountain of unquenchable hope, another portion of his being sought with undiminishing agony and vigor a reconciliation, an integration, a synthesis of vision and reality.

Roden

And beyond those fragmented levels of consciousness and being existed one certainty: To the forces of disintegration, he would not yield, come whatever might. Let death come! Still the vultures of dissension would find it a burdensome chore to remove his body from the field. Let them succeed in that, and his immortal spirit would hover, forever if need be, over the last seed of human hope, fanning it to life with the first promise of spring.

The winter of dissolution could not endure interminably, could not outlast human aspiration, whose tenacity belied its seeming frailty. Come sunrise again, the only indispensable thing for a bountiful harvest would be a long and fair seedtime.

With that thought, the old man ceased pacing the hills and knelt upon the piercing fragments of his once shapely globe to pray: "Oh, Joshua, come back. Come back, Joshua, with the rising sun of spring and teach us to make it stand at the dawning of a new day until the roots from this fragile seed crumble these broken shards into a fertile soil to yield nourishment for a new harvest. It's a simple boon, oh God of Joshua, but we need it so badly. Grant it, please! Oh, Joshua, do come back."

With the cessation of his petition, the waning moon dropped behind the western-most hill and the sun rose on the eastern horizon into a warm lingering dawn.

... All that took place ages ago. Yet sometime soon, if you care to be up so late, you may see the old man pace the hills again unmindful of the chilling winds that blow so steadily in this latest winter. Let us all join him in petition: "Oh, Joshua, come back!"

THE AUBURN ALUMNEWS

A Summary Of Major Developments—

Auburn Made Its Greatest Progress During Sixties

by Trudy Cargile, Editor
Auburn University News Bureau

The difference a decade can make is revealed in the annual report presented by Auburn University President Harry M. Philpott to the Board of Trustees on Oct. 23. The report, which traditionally highlights the developments of the fiscal year ending June 30, this year contains a summary of major developments at Auburn since it officially became a university in 1960.

"It has been a decade during which perhaps more progress was made than throughout the rest of the entire history of the institution," said Dr. Philpott who succeeded the late President Ralph B. Draughon at the middle of the period.

Auburn began the decade, like all other public educational institutions in Alabama, in the throes of proration. Leaders of the institution joined with educational leaders throughout the state in developing a better climate of understanding of the needs for education.

Increased revenues resulting from this move, added to funds from other sources, led to a growth in Auburn's total budget from \$21.8 million in 1960-61 to \$52.7 million in 1969-70. Total research activity rose during the decade from about \$2.5 million to nearly \$9 million.

Auburn's building program during the decade involved approximately \$49 million, of which

about \$10 million is currently under way. During the ten-year period, 47 per cent of the gross area of all academic and residential buildings on campus and more than half of the gross area of all academic buildings were added. Construction began on a four-year branch of Auburn University at Montgomery.

The organizational structure of Auburn has also changed during the decade. Instead of one vice president, there are now four. The new Division of Educational Services was created, as well as the position of Dean of Undergraduate Studies. The School of Chemistry was dissolved and its departments absorbed by other schools, and the School of Business was created.

Non-white Extension personnel located at Tuskegee Institute were moved to the Auburn University campus, and white and non-white staffs were housed together at the county level. Title changes for county, district and some state staff members were made and plans and programs were combined and revised.

An entire review of the curriculum at Auburn was undertaken, resulting in a new basic program for all freshmen and

the revision and updating of other curriculum. Basic ROTC became a voluntary program.

Enrollment rose from 8,829 to 14,525 during the decade and the faculty grew from 520 to 841. The number of faculty holding terminal degrees grew from 42 to 48 per cent. A total of 23,683 degrees were awarded from June, 1960, through June, 1970, representing 40.7 per cent of all degrees awarded in the history of the institution.

Eight new master's programs, two of these extending to a program at the Air University at Maxwell Air Force Base, and nine new doctoral programs were established. Graduate enrollment rose from 991 to 1,800 during the decade.

Library holdings at Auburn increased from 277,786 to 682,703 volumes during the decade. A number of professorships were established, largely through the efforts of Alumni and Development.

The student body, which has ranked in the upper 20 per cent of college bound freshmen for the entire nation, has undergone a change of attitudes and life styles. They seek more self determination, particularly in the matter of housing and women's rules. At the beginning of the decade, there were approximately 3,000 students living off-campus. There are now some 7,000 living in privately-owned and operated dormitories, apartments, trailer courts and complexes which have been developed during the decade. The boarding house is almost non-existent.

Auburn students have become less interested in traditions such as rat hats, pajama parades, and student participation activities. They have become more interested in service-oriented activities and events at which the students themselves are informed or entertained, the report points out.

Auburn has been a participant in several court cases during the decade, the first leading to the enrollment of the first Negro student in 1964. By Spring, 1970, there were 199 Negroes enrolled throughout the University.

Four Alumni Rate Apollo Medallions

When the National Aeronautics and Space Administration honored 18 South Central Bell employees recently for their part in the Apollo space program, four of those receiving this honor were Auburn alumni. Medallions commemorating the Christmas Day flight in 1968 were made from a special ball of aluminum that was aboard the spacecraft.

Receiving the medallions, which were mounted on certificates, were: George H. Speake '50; Stuart X. Stephenson, Jr., '50; Thomas A. Saunders '62; and Roy K. Dawson '43, and 13 other Alabama employees. These men were recognized for their direct involvement in "developing and furnishing special communication systems supporting the Apollo program up to Apollo 8."

MISS HOMECOMING—Becky Lilly, a sophomore in secondary education, became Miss Homecoming during Auburn's 58th Homecoming Festivities. She was presented to the pep rally audience on Friday night before Homecoming by Governor Albert Brewer.

State Department of Education.

SCIENTIST—Prof. Henry Eyring, professor of chemistry and dean emeritus of the Graduate School of the University of Utah, visited Auburn Nov. 12 and 13 for a series of lectures on mutations in relation to cancer and the degenerative disease of old age. Prof. Eyring met with students and faculty of chemistry, chemical engineering, and physics.

KIDNEYS — Auburn research under the direction of Dr. Paul Melius may lead to a better understanding of how the kidneys dispose of waste. The research, carried on in the Chemistry Department, deals specifically with the role of an enzyme, leucine peptidase, located in the kidneys. The Public Health Service is financing the research with a \$10,725 grant.

CLOSER—Dr. W. W. Spink, a visiting science lecturer at Auburn, has predicted a closer alliance between the medical profession and veterinary medicine. A medical doctor, Dr. Spink said that the alliance is necessary to break through problems that now confront both professions.

CO-OPS — William Thomas Padgett has been appointed assistant director of Cooperative

Education at Auburn. He had been a research associate and an instructor in the Department of Electrical Engineering. In addition to undergraduate and graduate study in electrical engineering at Auburn, Mr. Padgett has studied with DeVry Technical Institute in Chicago and with General Electric in Syracuse, N.Y.

GRADES—Auburn fraternities are progressing academically, although total fraternity membership is down. Ten fraternities achieved higher grade point averages than the average for all undergraduate men, who make up 78 per cent of the males on campus. Phi Gamma Delta was given special recognition for placing first among the 25 social fraternities on campus, with a 1.718 grade point average on the 3.0 system. Because of the high scholastic average made by the Phi Gamma Delta fraternity, a \$500 award was made to the Auburn University scholastic fund by the Phi Gamma Delta national fraternity. The second place fraternity was Alpha Gamma Rho with 1.689 and third was Alpha Epsilon Pi with a 1.687 average. Other fraternities in the top ten were Sigma Phi Epsilon and Theta Xi (tied for fourth), Beta Theta Pi, Lambda Chi Alpha, Sigma Nu, Pi Kappa Phi, and Phi Kappa Tau. Leading the fra-

(Continued on page 6)

HOMECOMING KING—Dick "Tube" Chambliss ran for Miss Homecoming at Auburn in an effort to put some spirit back into Homecoming activities and won. He and his campaign managers Curtis Gibbs and Dick Panagos, the brains behind the idea, just "wanted to see if something could be done to revive interest and spirit in Homecoming by challenging tradition and the means by which a tradition is carried out." His write-in candidacy appealed to students and he got a majority of the votes; however, he was disqualified on a technicality—homecoming royalty must be feminine. But he did get a crown from a local hamburger spot and honors at the pep rally. The flowers, presented to him at the pep rally by Dean of Students Jim Foy, right, he gave to Becky Lilly, the girl who next day received the Homecoming honors.

Auburn Alumnnalities

'18 Alexander C. Stewart now lives in Montgomery.

Temporary new address for William A. Guess is Riviera Beach, Fla. His permanent address will remain Leonia, N.J.

'20 William A. Cammack now lives in Butler.

'22 Ray O. Conwell has moved to Chattanooga, Tenn.

'24 Julian J. Duncan now lives in Decatur, Ga.

'25 George B. Jackson now lives in Sebring, Fla.

'26 NEW ADDRESS: Arthur C. Hyatt, Owens Cross Roads, Ala.; Joe Whitfield, Sr., Harlan, Ky.; G. Davis Rox, Gulf Shores; Capt. William W. Moore, Jr., U.S.N. Ret., Virginia Beach, Va.

'27 J. Forrest Collins has retired after 42 years with Texaco, Inc. His new address is Houston, Tex.

'28 NEW ADDRESSES: Robert P. McKinnon, Grosse Pointe Park, Mich.; Dr. Middleton H. Hagood, Jr., Meridian, Miss.

'29 NEW ADDRESSES: Vira C. Helms, Auburn; Charles R. DeArman, Birmingham.

'33 NEW ADDRESSES: Leula Mae Smith Riccio (Mrs. J. F.), Birmingham; Frances McGehee Westbrook (Mrs. Sam W.), Uniontown.

'34 Joseph C. McDaniel is assistant professor of horticulture at the University of Illinois.

'35 NEW ADDRESSES: Col. Sam Westbrook, Uniontown; Parker P. Powell, Dallas, Tex.

'36 A. Perry Gordy, director of the Columbus Area Vocational-Technical School in Columbus, Ga., received the M.Ed. from the University of Georgia on Aug. 21. He was initiated into Phi Kappa Phi, honorary scholastic fraternity on Aug. 20. Mr. Gordy majored in trade and industrial vocational education.

NEW ADDRESSES: Dr. James T. Murphy, Gainesville, Ga.; Denson D. Laney, Alexander City, Ala.

'37 Earl O. Murray of Birmingham was in Auburn for Homecoming.

'38 NEW ADDRESSES: Hunter E. Kendall, D.V.M., Hardaway; Lewis T. Woodard, Silver Spring, Md.; Bradt M. Cameron, Brandon, Fla.

'39 Col. Thomas J. Bowen, McComb, Miss.; Cdr. Samuel M. Tharp, Jr., Gulf Shores.

'40 R. P. (Bob) Armstrong of Donalsonville, Ga., has been honored with the presentation of an award in recognition of 30 years of service in the Soil Conservation Service (SCS). The Award was presented in Athens.

Mr. Armstrong has been with the SCS in Seminole County since 1946 as a work unit conservationist. He has been district conservationist since July 1, 1960. He completed his 30 years of service in March. Mr. Armstrong and his wife Barbara have two children: R. Kenneth Armstrong '65, a graduate student at Clemson University; and Angie, a junior in high school.

NEW ADDRESSES: Zoe F. Riley, Jackson, La.; Thomas F. Hodges, Orangeburg, S.C.

'41 Jackson H. Birdsong has been promoted to associate in physical medicine in the Emory University School of Medicine. He received an M.S. in industrial engineering from Georgia Tech in 1969.

NEW ADDRESS: Elwyn O. Creel, Cullman.

'42 NEW ADDRESSES: Harvey C. McClanahan, Hinsdale, Ill.; Mrs. Avis Middleton Waldrop, Arlington, Tex.; Frederick P. Adams, Tallahassee, Fla.; Paul M. Cain, Fairview, N.J.

'43 NEW ADDRESSES: William H. Yancey, Annapolis, Md.; Grafton G. Smith, Lehigh Acres, Fla.

'44 Dr. Victoriano Crespo-Sojo, San Jose, Costa Rica.

'45 John D. Baumhauer, Jr., of Mobile, has been appointed to the eight-man national agents council of The Atlantic Companies. He is president of Baumhauer-Croome and a chartered property and casualty underwriter. He is past president of both the Alabama Association of Independent Insurance Agents and the Alabama Association of Insurance Agents. He is active in community affairs and in the past served as chairman of the Mayor's Committee on Downtown Planning.

NEW ADDRESS: Dr. J. Curtis Kuykendall, Belden, Miss.

Campus Roundup

(Continued from page 5)

ternities on campus were the two professional fraternities Alpha Psi with 2.048 and Omega Tau Sigma with 2.019. The composite grade point averages of the professional fraternities and the one colony on campus, Farmhouse, are not included in computing the social fraternity averages.

HEALTH COSTS—Gloria R. Sabatini of Smith, Kline and French Laboratories, spoke to pharmacy students on national health early in November. She believes that a compulsory national health insurance program will be enacted near the middle of this decade. Miss Sabatini said that the national health bill now runs to \$60 billion annually or \$300 per person. Though the rate is increasing, national health seems to be slipping downward. The U.S. is 14th in infant mortality. Men live longer in 17 other countries than in the U.S., and women live longer in 14 other countries than here.

'46 William E. Peters recently retired from the Air Force as a lieutenant colonel and is living in Panama City, Fla.

Jean Woodham is currently having an exhibition of her metal sculpture at Fairfield University. New York critics have described her sculpture as innovative, witty, solid, elegant and sensitively derived from nature. She has been working with metal sculpture for a number of years and won her first prize in 1949. She was included in the first group show of direct metal sculpture in New York in 1951. The current show is her tenth one-man show.

'47 William D. (Jack) Cornelius teaches vocational agriculture at Stevenson (Ala.).

'48 S. Alfred Jones, former manager of the Davenport Works of Alcoa has been named general manager of the firm's smelting division in Pittsburgh. He joined Alcoa in 1948. Mr. Jones and his wife, (Dorothy Cottier '44) have two children: a daughter Leslie, a sophomore nursing student at Vanderbilt University, and a son, Hugh, a recent high school graduate.

Robert E. Kirby is with Sears in Memphis, Tenn.

The Rev. John F. Lindsey is the new pastor of Ridgecrest Baptist Church in Montgomery. He came to the church from Headland. He and his wife have two sons, John, Jr., and David.

Auburn rolls over Florida, 19-0, in homecoming.

No Thanksgiving holidays this year because, President Duncan explains, the University Calendar was drawn up during the war, when Auburn was on an accelerated schedule, and no provision was made for the holiday.

Fifty units will be constructed for married veterans by winter quarter. The units will be located south of Graves Center. The units are provided by the Federal Public Housing Authority, and will be constructed of frame demountable material. The units will be moved to Auburn from Panama City.

The Tigers rout Southwestern Louisiana 52-0.

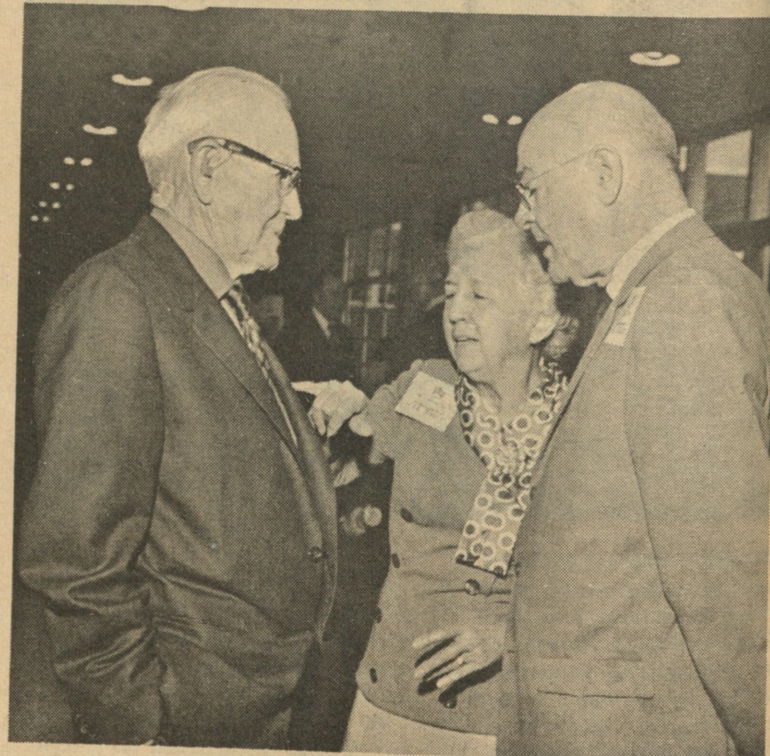

Georgia whips Auburn 35-0 in Columbus, Ga.

To help solve the housing problem for coeds, sorority girls will live five in a suite next quarter.

Sigma Chi and Chi Omega hold a joint hayride at Chewacla Park.

Auburn beats Louisiana Polytechnic Institute 29-0.

Miami beats Auburn 33-7.

FROM NEW MEXICO—Mr. and Mrs. Roy Sellers '29, right, of Montgomery, comment on the distance that Mr. Jacie Eslinger '08, left, comes from New Mexico every year to be in Auburn for Homecoming. "Mr. Jacie" as he is known to the alumni staff and to the other regulars is as much a part of Homecoming as football.

THE AUBURN ALUMNEWS

Prof. Madison Jones Honored—

'I Walk The Line' Premieres in Auburn

Auburn had its first movie premiere on Oct. 15, "Madison Jones Day" in the Loveliest Village. The movie "I Walk the Line," based on Mr. Jones' novel *An Exile* made its first state appearance, three days after its national premiere in Nashville, Tenn.

The movie, filmed by Columbia Pictures in the Cookeville area of Tennessee (Mr. Jones' native state), stars Gregory Peck and Tuesday Weld and co-stars Estelle Parsons and Ralph Meeker. Johnny Cash sings the theme song "I Walk the Line" and several other songs which tie the movie together.

In the movie, directed by John Frankenheimer, Mr. Peck plays a sensitive small town sheriff, caught between his responsibilities and his desires when he falls in love with a moonshiner's daughter, portrayed by Miss Weld. Played against a back-

ground of the change and inability to change in the Tennessee Mountains, the movie is made especially vivid by the photography.

The importance of the movie to Auburn faculty, students, and townspeople of course, is because Mr. Jones has been their Auburn colleague, teacher, and neighbor for the 14 years he has taught English and creative writing at Auburn University. *An Exile*, released in 1967, is his fourth and most widely-acclaimed novel. That same year he received a Rockefeller Foundation Grant to work on a fifth novel, to be released next year. In 1968 Mr. Jones became Auburn's first

Alumni Writer-in-Residence.

He has been described by Allen Tate, well-known poet and critic, as "our Southern Thomas Hardy." Mr. Tate says Prof. Jones' "smalltown and backwoods characters are Everyman and Everywoman. I consider Madison Jones one of the most important contemporary American writers."

The new book which will be released by Crown Publishers is tentatively entitled *Live in a Heavenly Mansion* and is about, the author says, "a woman's possessive and misguided efforts to maintain her integrity."

All four of Mr. Jones' books previously published appeared in paperback in October. They include besides *An Exile*, *The Innocent*, *Forest of the Night*, and *A Buried Land*.

'An Historic Year'—

Philpott Gives Board Annual Report

by Trudy Cargile, Editor
Auburn University News Bureau

Inauguration of a new basic study program for freshmen and a voluntary ROTC program, and a shift of research interest to environmental problems were among Auburn

University's major developments during the past year, President Harry M. Philpott reported to the Board of Trustees Oct. 23.

Dr. Philpott, in the published annual report covering the fiscal year which ended on June 30, termed it "an historic year, involving developments which will, in some respects, cast a mold for years to come."

The most important academic development, Dr. Philpott noted, was the inauguration of the new curriculum which provides a basic first year of study for all entering freshmen. This delays the option for a major course of study until the sophomore year.

There were additional changes and improvements in the remainder of the curriculum as a result of a University-wide study which was undertaken by the faculty and students in 1967.

"Auburn has been in a better position to recruit highly qualified faculty than in the past," Dr. Philpott said in his message which is a part of the report. "This has been due, in part, to

the larger number of persons who hold the Ph.D. and are seeking teaching positions and to a lessening of competition in some areas from industry," he added.

Referring to the development program, Dr. Philpott said the principal activity is now at Montgomery where the first phase of the building program for Auburn University at Montgomery is under way. Only the new veterinary facilities on the main campus are yet to be completed under the current building program. However, plans are under way for the first phase of a Fine Arts Building, a Fisheries and Wildlife Center, and a major expansion of the Auburn Union Building.

Dr. Philpott was complimentary to the Auburn Student Body which he reported as having conducted itself on a traditionally high plane.

"At Auburn, as elsewhere, there is the growing quest for answers to the problems of these times. In searching for these answers, it is to the Auburn students' credit that they have done so, primarily, through the avenues which are readily open to them for this purpose.

"The faculty and administration have maintained an open door policy in meeting and working with the students toward reasonable objectives," his report states.

Research is reported to have gained momentum, despite the cutbacks in federal programs from which many major contracts and grants were received in the past. In both research and extension, emphasis is being drawn more to environmental problems such as pollution. The Center for Urban and Regional Planning which was established in the reporting period will play a major role in this area of work.

Dr. Philpott reported that thus far, 25 members of the Auburn faculty have received Alumni Professorships made possible through the Annual Giving Program. Last year, for the first time, these awards were also given to new faculty.

Hug Becomes Head Educational Media

Dr. William E. Hug, acting head of the Department of Educational Media in the School of Education at Auburn University, became head of that department on Oct. 16.

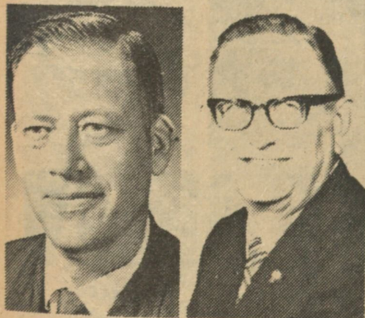

Dr. Hug is a native of LaGrande, Ore., and has been a member of the faculty at Auburn since 1969. He has coordinated courses in audio-visual education and library science with the Learning Resources Center at Auburn, and developed proposals for the department he now heads.

Dr. Hug is author or co-author of numerous articles appearing in professional education journals. He is co-editor of the work of the Alabama Committee for the Preparation of Educational Media Specialists.

Under Dr. Hug's leadership, Auburn became the first institution in Alabama and one of the first in the nation to offer a program leading to full certification as a media specialist. The program was approved this fall by the State Department of Education.

Dr. Hug holds the B.S. from College University of Oregon, the M.A. from Colorado State College, and the Ed.D. from the University of Southern California.

Cabaniss

Higgins

George Cabaniss '39 has been appointed manager of product development for the chemical division of The General Tire & Rubber Co. He joined General Tire in 1957 as a development engineer. Mr. Cabaniss, his wife Margaret, and their four children live in Akron, Ohio.

Ernest W. Higgins '40, C.L.U., has been named "Man of the Year" by the Columbus Life Underwriters Association of Columbus, Ga. Mr. Higgins, who has served four terms as Director of the Columbus Life Underwriters Association, was honored because of his service to his profession and to his community.

STATE PREMIERE—Prof. Madison Jones, Alumni Writer-In-Residence, pauses in front of the War Eagle marquee prior to the Alabama premiere of "I Walk the Line." The movie, starring Gregory Peck and Tuesday Weld, is based on Prof. Jones' novel, *An Exile*. A champagne reception followed the showing with Prof. Jones and his wife, Shailah, as guests of honor.

Phi Kappa Phi Selects 42

Sixty-six students, 42 of them undergraduates, have been elected to membership in Phi Kappa Phi, highest scholastic honorary at Auburn University.

Graduate students include Philip J. Anderson and James M. Daniel, both of Auburn; Ivy H. Davis of Savannah, Ga.; Homer Rex Etheredge of Ashford; Douglas R. Gates of Rochester, Mich.; Larry S. Gregory of Dixon Springs, Tenn.; Robert N. Hubbard of Florence.

Michael E. Idzikowski of Milwaukee, Wis.; Johnny W. Jordan of Cragford; John H. Lammers of Little Rock, Ark.; Wen Mi Liou of Taiwan; Mary B. Marcinkowski of Auburn; Milla McCord of Guntersville; Alexander F. Money of Gadsden.

Bobby J. North of Ashford; Robert W. Osburn of Chattanooga, Tenn.; Gary E. Patelski of Saginaw, Mich.; Jeannie G. Pippins of Birmingham; Mary Sue Polley of Cataula, Ga.; Kristin Poole of Scottsboro.

Shirley Schoonover of Columbus, Ga.; Caroline P. Smith of Anderson, S.C.; Bruce S. Trappnell of Bermuda; and Robert L. Wise of Huntsville.

Undergraduate students elected include Lila Carol Ammons of Montgomery; Rebecca A. Andrews of Weatherford, Tex.; John Reddoch Athey of Auburn; Donald Ray Beasley of Birmingham; John T. Best of Ft. Gaines, Ga.; Donna Sue Billings of Lexington, Ky.

Jane Leslie Black of Decatur, Ga.; William D. Buckhalt of Do-

than; Patricia Catherine Byrne of Eutaw; Barbara J. Coombs of Gadsden; Madison S. Crouch of Auburn; Edwin Moore EuDaly, Jr., of Savannah, Ga.

Roy Thomas Faulkner of Melbourne Beach, Fla.; Janie Forsyth of Anniston; William Phillip Griggs of Headland; Ruth M. Gunn of Roanoke; Leon L. Hardin of Cuba; Linda Jannette Hicks of Talladega; Daniel K. Hunt of Macon, Ga.

Mary R. Keeble of Wetumpka; Thomas I. King of Excel; Alan Lee Larson of Montgomery; William D. McFarlane of Anniston; George Noell Moseley of Memphis, Tenn.; Michael C. Nichols of Birmingham.

Doris Till Owen of Braggs; Maria Paul of Bay Minette; Sherry L. Powell of Opelika; Vickie Suzan Pruitt of Selma; Billy M. Reed of Auburn; Donna Lee Ross of Venice, Fla.; Mary Susan Rutledge of Jasper; Thomas D. Senkbeil of Avondale Estates, Ga.

Susan Jean Sforzini of Auburn; Jeff Lovern Stewart of Woodland; Sarah L. Turkington of Birmingham; Charles Edward Walker, Jr., of Columbia, Tenn.; Nat Jennings Walker of Mulberry, Tenn.; Norman M. Weed of Birmingham.

Carol Lee Weston of Redstone Arsenal; David Steven Wilson of Tullahoma, Tenn.; and Michael Wayne Woodford of Huntsville.

HOW'S YOUR YEAR BEEN?—James D. "Duck" Samford '20, right, greets Mr. Charles Harold '00 of Atlanta, one of Auburn's first alumni presi-

dents, and a perennial visitor at Homecoming, during activities on Oct. 24. In the background is Jimmy Naftel '26.

ROTC No Longer Compulsory—

Taps Sound for AU Military Tradition

by Paul Till

Taps sounded for the century-old tradition of compulsory military training at Auburn University this fall. ROTC enrollment dropped more than half when a new voluntary program was initiated on campus.

For 98 Years

The 98-year-old tradition of a compulsory military program at Auburn originated in 1872 when Auburn University was known as the A & M College of Alabama. Auburn, as a land grant college, was required by the Morrill Land Grant Act of 1862 to furnish military instruction to its students.

This fall Auburn began its first school year since 1872 without a compulsory military program. The compulsory program requiring all entering male students at Auburn University to complete two years of ROTC as a requirement for graduation was replaced with a voluntary program last year by Auburn's Board of Trustees.

In the early days of the military corps, which was not referred to as ROTC until 1916, cadets were required to take four years of the program instead of two years. In 1916, ROTC was established as such by the National Defense Act of that year. Auburn was one of 37 land grant colleges in the United States where the Reserve Officer Training Corps began.

From 100 to 3,200

Auburn's military program started out with 100 cadets in 1872 and increased to over 3,200 last year when Auburn's program was still compulsory. This year Auburn's total enrollment under the voluntary program is 1,538.

Auburn cadets in the 1870's learned to drill, stand guard, scout and patrol. They were provided breech-loading rifles and swords from the State. Cadets

had to buy their own uniforms which cost them about \$43. The uniforms included a grey frock coat with three rows of buttons and grey trousers.

The corps uniform was spruced up in 1885 with the introduction of a white helmet for dress occasions. This was the same era when the United States Army adopted Prussian style spike helmets.

First Head

Auburn's first commandant, as the military head was then called, was a Confederate Brigadier, George P. Harrison, Jr. The second commandant, Lt. Col. Robert Hardaway, is remembered as one of the most brilliant artillerymen in Robert E. Lee's Confederate Army of Northern Virginia.

Auburn's corps of cadets stood honor guard at the Auburn railroad station in May 1893 when Jefferson Davis' body was moved from New Orleans to Richmond.

OLD YEARBOOKS FOR SALE

Although sold out for several years previously advertised, a number of old Glomeratas are still available. The price is \$6.50 each, with order, including packaging and mailing charges. Figure following the year indicates the quantity remaining: 1945 (3), 1946 (10), 1947 (2), 1950 (4), 1953 (7), 1957 (27), 1959 (88), 1960 (112), 1961 (1), 1962 (49), 1963 (85), 1967 (43), 1969 (132), 1970 (529).

Please make check payable to the Glomerata. Address orders to Yearbook Advisor, 304 Martin Hall, Auburn University, Auburn, Alabama 36830.

ROTC cadets used to rise at 5:30 a.m. to the beat of drums. If they lived within a mile from the campus they had to report for roll call, return to their homes for meals and meet again on the campus at 7:45. The cadets could not retire before 10:30 and had to be in bed by 11 p.m. They were not allowed to go off the campus on weekends and leaves were granted only at Christmas or in an emergency.

The Army was originally the only military branch on campus, but Navy ROTC was established on campus in 1945. The Air Force separated from the Army in 1947 establishing a separate Air Force ROTC unit on the Auburn campus.

Sellers

Joyner

M. D. Sellers '41 is manufacturing and technical vice president of Celanese Fibers International Co. Mr. Sellers joined Celanese in 1964 and previously was general manager of Celanese Colombia, S.A. He and his family live in Westport, Conn.

Jack I. Joyner '41 is general manager of the PACECO Gulfport manufacturing facility, a division of Fruehauf Corp., Alameda, Calif. He was previously vice president and general manager of City Iron Works, division of Goslin Birmingham, Inc., in Wethersfield, Conn. Mr. and Mrs. Joyner will live in Gulfport, Miss.

ALUMNALITIES—Continued

John M. Norton has been promoted to colonel at the Army War College, Carlisle Barracks, Pa. He is an armor officer, now a student at the War College. He previously was chief of Operation Division, II Field Force in Vietnam.

Lt. Col. Marcus D. Moreman is a senior regimental advisor in Vietnam.

Arthur T. Heuer, Jr., recently returned to the States with his family after three years in Sao Paulo, Brazil. In Brazil he was a price control engineer with Phillips Petroleum in their project to build—in partnership with Brazilian interests—the first fertilizer plant in South America. In October he made a survey on the feasibility of laying pipe-lines in the bottom of the North Sea between Scotland and Norway to transport oil and gas for Phillips. He is now at home in Borger, Tex., with his wife, Carrie, and eight-year-old daughter, Kim.

'52 Maj. Alan C. Frederick has received the Bronze Star Medal for service in Vietnam. He distinguished himself as chief of the systems management branch at Tan Son Nhut, AB, Vietnam. He received the medal at Vandenberg AFB, Calif., where he is chief of maintenance for the 392nd Communications Squadron.

'53 Marywyl D. Coffman (Mrs. D. T.) is retired after teaching in the Opelika School System for 21 years and is now living in Cullman.

Henry L. Nichols, Fort Walton Beach, Fla., architect, is the new president of the Northwest Florida Chapter of the American Institute of Architects.

B. Dayton Preston is with The Preston Co., real estate and general insurance, in Columbus, Ga.

James S. Parker now lives in Northport. He was recently transferred to Tuscaloosa as area conservationist with the Soil Conservation Service.

'55 James W. Vaughn is divisional administrator of the Shop Division at Lockheed-Georgia in Marietta.

Lt. Col. Joseph J. Stone is at Ft. Leavenworth, Kan.

'56 Lt. Col. John T. Colson, lives in Riverdale, Ga.

BORN: A son, Richard Powell, to Mr. and Mrs. Walter Lyle Hannum (Ann Marie Powell) of Huntsville on Sept. 23. He joins two brothers and three sisters.

'57 Jerry L. Gentry is an attorney in Marietta, Ga. He is a member of the State Bar of Georgia, Cobb County Bar Association, the American Bar Association, and the American Judicature Society. He and his wife Betty have one son who is eleven.

Maj. Jimmy V. Adams is with the Air Force ROTC Department at Auburn University.

Maj. Eldred D. Merkl is attending the Air Command and Staff College at Maxwell AFB. Maj. Merkl will be stationed there for 10 months. He holds the M.S. and Ph.D. in electrical engineering from Texas Tech.

Robert C. Brown, Jr., is enrolled at the State University of New York at Albany where he transferred from the U.S. International University at San Diego. He is working toward a Ph.D. in psychology.

Maj. Robert E. Chaney has received the Air Medal at Takhli Royal Thai AFB, Thailand. He is a fighter bomber electronic warfare officer. He was decorated for outstanding airmanship and courage on important missions.

William I. Moore is with LTV of Dallas and is now in Alice Springs, Australia, for a year.

Dr. Bibb B. Huffstutler has been appointed associate professor and chairman of the Department of Community Dentistry at the Emory University School of Dentistry. He was formerly district director of Dental Public Health in District 28 of Georgia. He is secretary of the Medical-Dental Section of the Georgia Public Health Association, a member of the Board of Directors of the Cobb County Unit of the American Cancer Society and consultant to two Project Headstart programs. He and his wife Diana have three children and live in Marietta.

Marlin H. Forstrom attended Georgia Tech last year and received a master's in electrical engineering in September. He has returned to Eglin AFB, Fla., where he has been employed for the past four years.

Maj. Earle F. Lasseter is assigned as Deputy Staff Judge Advocate with the headquarters of the Army Command in Berlin, Germany. He was formerly assigned to Heidelberg, Germany, and came there from a Vietnam tour. While in Vietnam, Maj. Lasseter received the Bronze Star Medal with First Oak Leaf Cluster, the Air Medal, the Army Commendation Medal, the Purple Heart, and the Republic of Vietnam Honor Medal First Class.

Faulkner

Tyree

T. L. Faulkner '42 is director of vocation education for Alabama, succeeding J. F. Ingram who recently retired. Mr. Faulkner will head a division of the State Department of Education that involves more than 2,500 employees on the state and local levels. He served 13 years as state supervisor of vocational agriculture. He and his wife Odette have two married daughters.

Karl T. Tyree '47 has been elected to the Florence Board of the State National Bank of Alabama. Mr. Tyree is the attorney and executive director of the Florence Housing Authority. He and his wife Fredericka have four children.

Vets Give Hopeful Prognosis For Top Sire—

Bold Ruler goes Home After Medical Treatment

The world-famous race horse and sire, Bold Ruler, went home from Auburn on Oct. 15 amid cautious hope for another productive year for the stallion. The 1957 Horse of the Year and the top North American Thoroughbred sire since 1963, Bold Ruler arrived in Auburn for unprecedented treatment for cancer in August. The horse came to Auburn because it is the only Veterinary School in the nation with the facilities for such treatment.

The horse began having difficulty in breathing in July. Preliminary surgery in Lexington, Ky., during August showed that the cancer was malignant. A couple of weeks later the Auburn Veterinary School was contacted and asked to take the valuable stud (his offspring have earned more than \$14 million) as a patient.

An Initial 'No'

Auburn's initial answer when contacted late Friday, Aug. 21, was "no." The school lacked the private stall necessary to isolate the horse from other animals, and Auburn's cobalt source needed to treat the horse was five years old and not strong enough for the proper dose.

The famous horse-racing family of Phipps which owns Bold Ruler then began telephone arrangements to secure a new cobalt source and fly it from New York to Auburn along with two technicians to install it. That same night Dr. Fred Schell, head of the Large Animal Clinic at Auburn, and Dr. Jerry Johnson, professor of large animal surgery and medicine, began sketching plans for a stall and attempting to line up carpenters to work during the weekend.

The Dean of the Veterinary School James Greene was contacted at a dinner party, also attended by Alumni Secretary Joe Sarver and Dr. Cecil Yarbrough, a prominent veterinary alumnus.

At six o'clock on Saturday morning, the local unskilled labor, including Dean Greene, Mr. Sarver, Dr. Yarbrough, and Associate Alumni Secretary Buck Bradberry, met to make plans. They were aided by the late Zack Sprayberry, owner of a local building supply company and contractor Jack Shannon.

'Unskilled' Labor

Shortly thereafter the project was underway. The "unskilled labor" — with the aid of two workers whom Dr. Yarbrough brought to do the wiring and plumbing — and a student that somebody located to fabricate the metal were hard at work. Three veterinary students—Doug Brandon, Douglas Berry, and William C. McDevitt—came by the Veterinary Clinic later in the day and volunteered their services as did Dr. Harry S. Conboy, Jr.

Dean Greene helped load and unload materials and did some of the metal work. "I broke four saw blades cutting the opening for the air conditioner, so you know I didn't know what I was doing," he recalls. Mr. Sarver pitched materials and kept the crew supplied with hot dogs and hamburgers. Mr. Bradberry ran the tamping machine secured from Opelika. Everybody else ran errands, brought materials, and worked alongside.

Install Cobalt

Elsewhere other university officials were busy, too, making arrangements for the horse to come and for his treatment once he arrived at Auburn. Dr. Ray Askew, the physicist who is acting director of the Nuclear Science Center, was coordinating efforts to install the new cobalt source. Dr. Jerry Johnson and

Dr. Jan Bartels, a radiologist, planned the Auburn treatment.

Back at the stall-raising, the "unskilled laborers" drenched with perspiration in the hot humid August weather, worked late Saturday and again on Sunday. The remaining crew finished the job of building a stall for Bold Ruler at 3 a.m. Monday—only four hours before the horse was admitted for treatment.

After he arrived in Auburn, Bold Ruler received a total of eight cobalt treatments for the tumor located in a nasal passage. The treatments, given about a week apart, took place at Auburn's Leach Nuclear Science Center, approximately 1½ miles from the horse's stall at the Large Animal Clinic.

Bold Ruler was usually brought to the Center early in the morning to avoid campus traffic and to allow the attending veterinarians to give full attention to his recovery during the day.

After the treatment, given by Drs. Johnson and Bartels assisted by Dr. Askew and Anesthesiolo-

gist Dr. James A. Botta, Jr., Bold Ruler recovered from the gas anesthetic at the Center until he was able to be led back onto the van for his return, at a very slow speed, to his stall. Campus police provided an escort for the return trip to insure traffic control to avoid sudden stops.

Lawrence Robinson, head groom of Claiborne Farms where Bold Ruler had been for 12 years, came to Auburn with him. Mr. Robinson maintained an around-the-clock vigil over the stallion, living in a trailer adjoining the stall. The veterinarians said one of their major concerns was making certain that Bold Ruler did not dislodge the tracheotomy tube placed in his windpipe in Lexington so that he could breathe. The tube was necessary since horses cannot breathe through the mouth.

The day before Bold Ruler returned to Kentucky, the Auburn Veterinary School held a press conference to talk about the unprecedented treatment of an animal so large.

Although the veterinarians did not say that Bold Ruler has been cured, they are "optimistic and encouraged" over the progress made in his treatment. The size of the tumor has been reduced significantly and the horse did begin breathing partly through his nostrils again. He also regained 50 pounds while at Auburn, showing that he responded to the treatment "quite well."

However, it may be several months before the Auburn Veterinarians will venture an opinion on how effective the treatment has been. The horse, now back in Kentucky, will be checked two or three times in the late fall and winter at intervals of five or six weeks. After the checks and further X-rays, Dr. Johnson has indicated that the doctors may give an opinion on his possibilities as a stud next spring.

Meanwhile, the horse's owners are at least more optimistic than they were last August, and Auburn's well-known Veterinary School may have received further impetus and support for research in a new area.

ALUMNALITIES—Continued

James B. McKinley has been promoted to International Paper's engineering department in Mobile. In his new position as design engineer, he is responsible for assistance on all phases of engineering and building of a construction project at the Cali, Columbia, mill of PROPAL, an affiliate of International Paper. Mr. McKinley has been with International Paper since 1957. He was in the Panama City, Fla., mill for 10 years and then was promoted to the central division's engineering department in 1967 where he remained until his recent promotion. He and his wife have two children.

James Roland Sexton is with

Standard Electric in Rio de Janeiro, Brazil.

BORN: A daughter, Kathryn Elizabeth, to Mr. and Mrs. **William Walter Arnold, Jr.**, of Birmingham on March 27.

A son, David William, to Maj. and Mrs. **William E. Bartlett, Jr.**, of Fort Shafter, Hawaii. He joins brothers Scott and Michael.

'58 Dr. **William J. Wilhelm** was appointed associate chairman of the Department of Civil Engineering at West Virginia University on July 1.

Ldr. and Mrs. **Fred C. Holt** (Sue Ellerbee '57) live in Virginia Beach, Va., with their four children. Ldr. Holt is currently assigned as the communications officer aboard the Navy's newest attack carrier, the USS John F. Kennedy. He attended Auburn and recently completed requirements for a BS in engineering science from the Naval Post Graduate School at Monterey, Calif. Ldr. Holt is a naval aviator with over 5,000 flying hours in anti-submarine patrol aircraft. Mrs. Holt is active in the Ship's wives' club and bowling league.

'59 Maj. **John C. Flournoy** is stationed at Scott AFB, Ill.

Capt. and Mrs. **John K. Arnold, III**, (Louise McGinn) are living in Montgomery where he is attending the Air Command and Staff College at Maxwell AFB, and is also enrolled in the Auburn graduate program with the Air University.

James P. Tucker became county Extension chairman in Fayette County on Sept. 1. He had been a farm agent there since 1961. He and his wife Marry Ellen have two children, Kara, 5, and Kevan, 8 months.

BORN: A son, James Wyatt, to Mr. and Mrs. **Wyatt Lane** (Linda Lee) of West Point, Ga. Wyatt is a cost accountant with West-Point-Pepperell, Inc. . . .

A son, John Melton, to Mr. and Mrs. **Joseph A. Holifield, III**, (Marian Melton '61) of Mobile on Nov. 17, 1969. He joins Laura who is seven and Joseph IV, five. Joe is an electrical engineer with the engineering consulting firm of J. B. Converse & Co. and Marian teaches piano at home.

A daughter, Julie Danielle, to Mr. and Mrs. **Perry D. Branyon** (Peggy Lancaster '60) of Metairie, La., on Aug. 29. She joins Mark, 9, Tenza, 8, and David, 5. Mr. Branyon is with Walker-Roemer Dairies in Metairie.

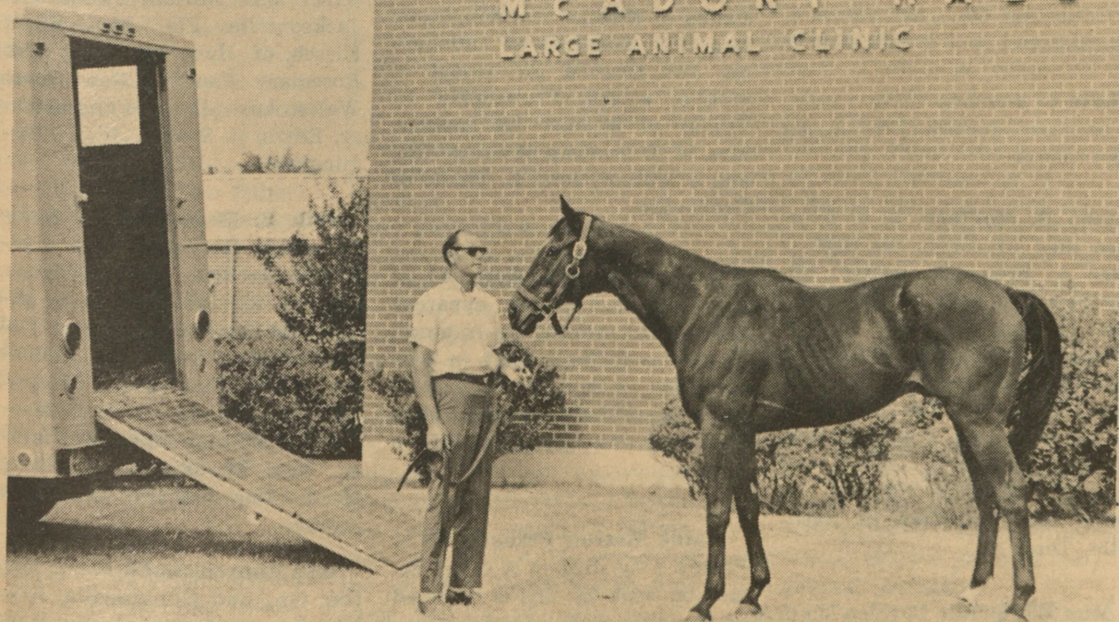

A son, Kevin Patrick, to Mr. and Mrs. **L. Gilbert Griffis** on Oct. 6 in Bangalore, India. Gilbert is the administrator for the Mysore State Program of CARE, Inc.

'60 **Curtis N. Hammond** is a forester for Union Camp Paper Co. at Prattville.

Lydia Moore Almand now lives in Marianna, Fla. She was in Auburn for Homecoming.

Maj. **Clarence C. Campbell** piloted one of the two first helicopters to fly across the Pacific Ocean recently. The two helicopters made the 9,000-mile trip from Eglin AFB, Fla., to Da Nang, AB, Vietnam. The aircraft stopped in North Dakota, Alaska, Japan, Okinawa, and the Philippines and were refueled in flight several times by HC-130 Hercules tankers. The longest non-stop leg of the flight was between Shemya Island in the Aleutian chain and Misawa AB, Japan, a distance of 1,700 miles. The flight took nine days, including one-day delays for maintenance checks and bad weather. The trip cut 75 percent off the time it normally takes to move such aircraft to Vietnam and demonstrated the helicopter's world-wide tactical capability.

BORN: A son, James Carter, to Dr. and Mrs. **James C. Wells** (Sydna Roton) on May 2. The

BOLD RULER RETURNS HOME — Bold Ruler, after receiving eight cobalt treatments for a malignant nasal tumor, returned to Claiborne Farm in Paris, Ky., on Oct. 15. Lawrence Robinson,

Claiborne's head stud groom shown here with the stallion, had remained at Auburn University's Large Animal Clinic with the leading thoroughbred stud since he was brought here for treatment.

In Memoriam '02 Through '67

Clyde A. Collins '02 of Shreveport, La., died in March. Survivors include a son, Charles S. Collins of Shreveport.

George Henry Marsh '08 of Montgomery died in a local hospital September 11 after a brief illness. Survivors include his widow, Mrs. Dolly Love Marsh; five children, George H. Marsh, Jr., of U.S.S. Shangrila; Jack Marsh of Austin, Texas; Mrs. Dolly Marsh Gurrola of Berkeley, Calif.; Mrs. Georgia Marsh Long of Chicago, Ill.; and Mrs. James Marsh Jones of Fort Worth, Tex.; and ten grandchildren.

Holland Eugene Cox '09, retired Birmingham business executive and former president of the Birmingham Chamber of Commerce died Oct. 16. He was a vice president and board member of Birmingham Electric Co. when elected president of the Birmingham Chamber of Commerce. He retired from BECO in 1952. Mr. Cox was elected president of the Birmingham Better Business Bureau when it was organized in 1953. He is survived by two sons, Holland Cox, Jr., '38 and Rogers Cox; and a daughter, Mrs. John Davis Sibley, all of Birmingham.

John Treutlen Foy '09 of Clemson, S.C., died at his home on Sept. 21. Mr. Foy had lived in Clemson since 1910 and was employed by Clemson University in the Fertilizer Analysis Department for 46 years before retiring in 1956. He was a charter member of the Fellowship Club and the Clemson Retired Men's Club. He was a former member of the Clemson City Council. Survivors include a daughter, Mrs. Mac Folger of Spartanburg; a sister, Mrs. Frank C. Petry of Eufaula, Ala.; three grandchildren and four great-grandchildren.

Laurel F. Summers '09 of Montgomery died in the Veterans Administration Hospital on Sept. 29. Survivors include a brother, Augustus C. Summers of Gainesville, Fla.

Jefferson Cameron Falkner '10 died on August 16 in Fort Washington, Long Island, New York. Survivors include two nieces, Mrs. Marion Holt and Mrs. Janet Myers, both of Long Island, and a nephew, Erik J. Blomquist, Jr., of Miami, Florida.

James M. Barr '12 of Eufaula died in the spring of this year according to recent information.

Herbert Hilary Moorer '13, a long-time resident of Montgomery who had moved to Sarasota, Fla., four years ago, died Oct. 19 in a Sarasota hospital after a brief illness. He had been associated with several drug companies, owned Nehi-R.C. Cola Bottling Co., and had a cattle ranch in Montgomery. Survivors include his widow, Mrs. Leo H. Moorer of Sarasota; a daughter, Mrs. Frances M. Davis and a grandson, Herbert Moorer Davis, both of Sarasota; three brothers, Hubert D. Moorer of Mobile, and John Frank Moorer and Lamar Moorer of Hardaway and a sister, Mrs. Winnie M. Kellem, of Whittier, Calif.

William Wallace Caldwell '13

of Greensboro, N.C., died Oct. 3 in a nursing home. He was a retired special services officer of Southern Railway and had lived in Greensboro 29 years. Surviving are his widow, Mrs. Mildred Tichenor Caldwell; son, Oliver Caldwell of Winston-Salem; daughters, Mrs. Florence Touchstone of Greensboro, and Mrs. Henrietta Edwards of Rockport, Mass.; sister, Miss Kay Kyle Caldwell of Auburn, and eight grandchildren.

Charles David Moon '14 of Chattanooga, Tenn., died Dec. 14, 1969. He is survived by his widow, Mrs. Rosemary E. Moon.

Rush H. Pearson '14 of Birmingham is deceased according to recent information.

Dr. Ira A. Ferguson '15 of Atlanta died February 26. He was with the Emory University Clinic.

Lenwood Hugh Flowers '16 of Wilson, N.C., is deceased according to the Post Office.

William W. French, Jr. '20 of Birmingham was killed Oct. 27 at his farm in Blount County when his tractor overturned. He was board chairman of Moore-Handley Inc. He had succeeded his father as president and more recently as chairman of the board of Moore-Handley, one of the largest wholesale distributors in the United States. He became president in 1947 and chairman in 1960. He was also a director of the First National Bank of Birmingham since 1949 and was on the board of directors of Jefferson Federal Savings and Loan Association, and National Wholesale Hardware Association, and five years ago was named "National Hardware Man of the Year." Surviving are his wife; two sons, J. S. M. and W. W. French, III, all of Birmingham; two daughters, Mrs. James R. McWane, Birmingham, and Mrs. R. K. Brantley, of Wilmington, Del., and one brother, James Van Hoose French of Birmingham.

Perry C. Day '20 of Atlanta, Ga., died Oct. 9. Survivors include his wife.

William Stephenson Halsey '20 died in Pineview Hospital in Hartselle on July 17. He was with the Rural Electrification Administration until his retirement five years ago, and lived in Tuscumbia. Surviving are his widow; one son, William Halsey, Jr., Anniston; and one daughter, Mrs. Louie L. Brown, Decatur.

George Williamson Cushing '21 of Ashland, Ky., died July 21 in a Huntington, W. Va., hospital, after a brief illness. He was president of the Ashland Asphalt Paving Co.; a member and past president of the Plantmix Industry of Kentucky; a member and former director of the West Virginia Contractors Association; a charter member of the National Asphalt Pavement Association; a delegate to the Fifth International Road Federation World Highway Conference in London; and had been appointed a delegate to the Sixth World Highway Con-

ference in Montreal. He was a member of the Kentucky Society of Professional Engineers; The Ashland Kiwanis Club; the American Legion; the Elks Club; and the Sons of the American Revolution. Survivors include the widow, Mrs. Edna McCubbins Cushing; a daughter, Mrs. John M. Goodman of Lathrop Village, Mich.; and two granddaughters, Kirsten Marina Goodman and Tyra Lei Goodman.

Arthur Lee Hamner '23 of State College, Miss., died Sept. 25. Survivors include his widow.

Paul Rudolph Maass of Montgomery died Sept. 27 in a local hospital following a brief illness. He is survived by his wife, Mrs. Edwina D. Maass of Montgomery; one sister, Mrs. Irma Doerr of Birmingham and several nieces and nephews.

James F. Graham '25 died several months ago according to recent information.

Dennis E. Hart '26 of Durham, N.C., died July 1. Survivors include his wife, Mrs. Alice D. Hart of Durham.

Col. William W. Young '29 of Houston, Tex., died Sept. 26 of lung cancer. He is survived by his wife.

John B. Kincaid '29 of Atlanta died at his home on Oct. 4. He was secretary of Southern Bell Telephone Co. at its general headquarters. Mr. Kincaid began work with the telephone company as a student in 1929. He held positions of increasing responsibility while working with Southern Bell in Mississippi, Georgia, and Florida. While holding the position as Florida manager, Kincaid was promoted to commercial operations engineer at company headquarters in Atlanta. He became assistant vice president of merchandising and later of staff operations. He was appointed assistant to the president in 1969. He has been a member and director of a number of civic clubs. Mr. Kincaid is survived by his wife, Mary Gladys Steffner Kincaid; two sons, John B. Kincaid, Jr., '60, of Columbus, Ohio, and James C. Kincaid; and four grandchildren.

Lute G. Deloney '29 of Trinity is deceased according to recent information.

John B. McClure '30 of Florence died of cancer on Sept. 7 after a three-year illness. Mr. McClure had been branch manager of Crop Insurance in Birmingham and in Washington and had served on the State Agriculture Commission. He is survived by his wife, Mrs. Louise Brewer McClure; two sons, John E. and James I. McClure '63 and one sister, Ruth Lovelace of Nashville, Tenn.

Miss Willie Mae Cowden '30 of Mentone died on Aug. 24, 1969. She is survived by her sister, Mary Cowden of Mentone.

Paul Summerville '31 of Aliceville died on Aug. 2 according to recent information.

Varna Mae Watson '32 of Gadsden died on June 6.

William Douglas (Ike) Parker '33 of Ozark is deceased according to recent information.

Ernest Mason Howell '34 of Foley died Aug. 31 following a heart attack. Survivors include his widow, Edith Howell, one son and one daughter.

Alvin Aubrey Hamric '38 died May 9 according to information received in the Alumni office.

Mrs. Hilda Harper King '39 of Camp Hill died Oct. 18 at an Alexander City hospital after a short illness. Mrs. King taught science at Camp Hill High until her retirement. After retiring she did some supply teaching. She also became interested in and gave much of her time to the regional library work in the last years of her life. She is survived by one daughter, Mary Frances, of Tuscaloosa.

James B. Thomas '41 of Auburn died suddenly at his home on Oct. 3. He was in charge of distributive education at Opelika High and conference executive for the Border Sports Conference. In the past he had been basketball and assistant football coach at Auburn High and for eight years was head football coach at Tuskegee High. He served as a counselor for the Alabama Boys State for 13 years, and had been with the Opelika system for the past 10 years. Survivors include his wife of Auburn; and three sisters, Mrs. Curtis Sims, Mrs. R. C. Raney, both of Lanett, and Mrs. G. W. Cantrell of Montgomery.

Larry V. Tindal '42 of Mobile died in a local hospital June 30. He was maintenance and engineering superintendent at International Paper Company in Mobile. He was a member of the American Society of Mechanical Engineers, secretary of the Industrial Management Club of the YMCA and president of the PTA of Holy Family School. Surviving are his widow, Pauline Otto Tindal of Mobile; two daughters, Mrs. Mell Martinex of Tallahassee and Deanna M. Tindal of Mobile; a son, Christopher H. Tindal of Mobile; his mother, Mrs. W. D. Duncan of Greenville, and a brother, John B. Tindal of Greenville.

William Howard Hart '43 of Florence died of an apparent heart attack during the Auburn-Tennessee football game in Birmingham on Sept. 26. He was an employee of the Tennessee Valley Authority and worked at Wilson Dam.

Mattie Morrow Franklin '45 of Phenix City died of a heart attack on Sept. 23. She is survived by two sons, A. H. of Phenix City and Charles E. '56 of LaGrange, Ga., and four grandchildren.

Laura O. Embrey Goode '46 of LaGrange, Ga., is deceased according to recent information.

Mrs. Margaret Pruitt Flanagan '49 of Houston, Tex., died on Sept. 9. She is survived by her husband, Robert V. Flanagan '49; two sons, John, 17, and Victor, 7; parents, Mr. and Mrs. Ralph Pruitt of Henderson, S.C.; and three sisters: Mrs. Louis Scarborough, Columbus, Ga.; Mrs. David Hutto, Anderson, S.C.; and Mrs. James Green, Macon, Ga.

Mrs. Emily Stephenson Feely '49 of Atlanta, Ga., died Oct. 9 after a six-month illness. Survivors include a cousin, Bernice Anderson of Atlanta.

Charles Torbert, Jr. '50 of Lafayette died Sept. 28. He was Alabama's Outstanding Young Banker of 1965. He was president of LaFayette Farmers and Merchants Bank and the city's Industrial Development Board, past treasurer of the State Jaycees, and a member of the Chambers County Development Committee and the Alabama Bankers Association. Survivors include his wife; two sons, Lon and Jeff Torbert, and his mother, Mrs. Charles Tolbert, Sr., all of LaFayette; and two sisters, Mrs. John Hanson of East Point, Ga., and Mrs. Jack Beggs of Montgomery.

James Edward Chancellor, Jr. '53 of Macon, Miss., died Nov. 17, 1969.

Col. Simon Albert Stricklen '53 died Aug. 25 after a long illness. He was in Atlanta receiving special medical treatment at the time of his death. Survivors include his widow, Ruth Housel Stricklen; a daughter, Susan R. Stricklen of Augusta; three sons, Simon A. Stricklen, Jr., of Atlanta; William H. Stricklen of Huntsville, and James D. Stricklen of Tuscaloosa; two sisters, Mrs. Gus Helmers of Reform, and Mrs. Pauline Love of Edwards, Calif.; and two brothers, Frank A. Stricklen of Pickens, Miss.; and Henry M. Stricklen of Tuscaloosa.

Karl R. Staub '56 of Bessemer died Sept. 21. He is survived by his parents, Mr. and Mrs. E. J. Staub of Mobile; four sisters, Mrs. Martha Hamrick of Bessemer, Mrs. Miriam Swanson of Jacksonville, Fla., Mrs. Emily Kirsch of Huntsville, and Mrs. Rosemary Paul of New South Wales, Australia; and one brother, Edwin J. Staubs, Jr., of Birmingham.

Seth E. Medley '58 of Stone Mountain, Ga., died in an automobile accident in Ft. Gaines, Ga., on Sept. 25. He was an auditor for the U.S. Department of Agriculture. Survivors include his widow, Mrs. Aileen Medley; two sons, Donnie and Andy Medley, all of Stone Mountain; father, Rass M. Medley of Rocky Head; four sisters, and five brothers.

Inez Runyon Smith '59 of Macon, Ga., and Guntersville, Ala., associate professor of education at Mercer University, died in a two-car accident just south of Bessemer on Sept. 14. She is survived by two sons and a daughter.

(Continued on page 11)

THE AUBURN ALUMNEWS

Who's Who Elects 38 at AU

Thirty-eight Auburn University students have been named to the 1970-71 Who's Who Among Students in American Universities and Colleges. Their selection was based on leadership, academic standing, community service and future potential. Students selected were:

Cathy Lynn Aderholt of Birmingham, a senior in sociology; Sara Lynn Arendall of Birmingham, a junior in secondary education; Beverly Bradford of Birmingham, a senior in journalism; Anna Elizabeth Baker of Louisville, Ky., a senior in pharmacy.

James H. Brennan of Dothan, a senior in industrial engineering; Donald Brown of Auburn, a senior in architecture; William Johnny Camp of Auburn, a senior in economics; John H. Causey of Belle Glade, Fla., a senior in veterinary medicine; Jeanne Coble of Ft. Payne, a senior in secondary education.

Joseph W. Cook of Albertville, a senior in speech; Carol Ann Cruze of Birmingham, a senior in secondary education; Douglas N. Davis of Winterville, Ga., a senior in aeronautical administration.

Robert R. Douglas of Hurst, Texas, a senior in political science; Reed A. Edwards of Birmingham, a senior in civil engineering; William Gibson of Richmond, Va., a senior in pre-law; Chester L. Harvey of Moss Point, Miss., a senior in secondary education.

Ronald Horton of Andalusia, a senior in English; Judith Ann Jehle of Montgomery, a senior in pre-medicine; Douglas H. Johns of Chattanooga, Tenn., a senior in business administration; Robert C. Keen of Billingsley, a

graduate student in agricultural economics.

Geoffrey Ketchum of Birmingham, a junior in general curriculum; Mary Kathryn Lawrence of Panama City, Fla., a senior in elementary education; Robert M. Lofton of Pineville, La., a senior in veterinary medicine; Lucy M. McCord of Baton Rouge, La., a senior in elementary education; William Park McGehee of Greenville, a senior in pharmacy.

Merrye J. McGilvray of Opelika, a senior in journalism; John P. Mengelt of Ellswood, Ind., a senior in marketing; Linda G. Mobley of LaGrange, Ga., a senior in sociology.

Cheryl Overman of Panama City, Fla., a senior in elementary education; Martha Lynn Quenell of Sylacauga, a senior in elementary education; James F. Redman of Courtland, a junior in political science.

Thomas D. Senkbeil of Avondale Estates, Ga., a senior in industrial engineering; Clarissa V. Spears of Mansfield, Ga., a senior in family life and child development; James Stevenson of Auburn, a senior in political science.

Patrick Sullivan of Birmingham, a senior in business administration; James C. Torbert of Murray Hill, N.J., a senior in architecture; Mary Ann Wages of Atlanta, Ga., a senior in secondary education; Larry Willingham of Birmingham, a senior in business administration.

In Memoriam

(Continued from page 10)

Roland E. Hartwig '62 of Sonoma, Calif., died Jan. 26. He is survived by his wife.

Mrs. Janie Mai Franklin McMahan '62 died of cancer on Sept. 17 in Shreveport, La. Mrs. McMahan received her B.S. degree from Henderson State College in Arkadelphia, Ark., in 1950 and her M.Ed. from Auburn in 1962. An educator for 27 years, Mrs. McMahan served on the faculty of Springhill Junior High School in Springhill for the past 20 years. She is survived by her husband, William Delton McMahan of Springhill; her father, Dixie Webb Franklin of Stamps, Ark.; her mother, Mrs. Atee Greer of Texarkana, Tex.; one son, William David McMahan of Russellville, Ark.; one daughter, Mrs. Troy E. Rushing of Shreveport, La.; and five grandchildren.

Bobbie Merle Deaton Oesterreicher '63 of Columbus, Ga., is deceased according to recent information.

Ronald L. Veigl '66 is deceased according to recent information.

Marilyn Sussna Levine (Mrs. Newton) '67 of Byfield, Mass., died Jan. 4. She is survived by her husband and parents, Mr. and Mrs. Abe Sussna of Philadelphia, Pa.

Former History Head Dies

Dr. Alfred Wade Reynolds died Sept. 19 in the Lee County Nursing Home. He was head professor of the History Department from 1950 until his retirement in 1964. Dr. Reynolds' association with Auburn has been continuous since his graduation in 1913, except for two years at the University of California where he received the master's and doctoral degrees. He was a member of the Alabama Historical Society, and actively sought the placement of historical markers at historical sites throughout Alabama.

Dr. Reynolds published articles, pamphlets, and book reviews, and was the author of two books, *The Alabama-Tombigbee Basin in International Relations, 1701-1763* and *The French Regime in the Alabama Basin, 1700-1722*. He was a member of Phi Kappa Phi, national honorary, The American Historical Association, the Southern Historical Association, and the Alabama Educational Association. He served on the editorial board of *The Alabama Review*, with the Southern Council on International Relations, and the American Academy of Political and Social Science.

He is survived by one brother, Dr. Jim Reynolds, a retired dentist of Clio.

WAR EAGLE WELCOME—While the fans crowd around, Auburn President Philpott and Governor Brewer present Bob Hope with a War Eagle feather at the Auburn-Georgia Tech game on Oct. 17. Mr. Hope immediately inquires "who plucked

this feather?" At the end of the game, with the Tigers 31, and the Jackets 7, it was evident that the pluckers were not the engineers from Georgia. Mr. Hope, sponsored by the Student Government Association, appeared Saturday night.

ALUMNALITIES—Continued

Carters recently attended a medical convention in Mexico City.

'61 Donald P. Hall is now a senior process engineer with Mobil Chemical Co. in Charleston, S.C.

Frank O. Sinclair is in Vietnam with the Air Force.

Alice Bach Jones and daughter Shannon, 4½, live in Montgomery with her parents. Alice is a fashion illustrator for the Montgomery Fair Department Store.

Robert Terry Vaughan is a second-year student at New Orleans Baptist Theological Seminary in New Orleans working toward a Master of Theology.

Martha Judith Greer, assistant professor of physical education and women's counselor at Oxford College of Emory University, has received the International Berneta Minkwitz Scholarship of the Delta Kappa Gamma honor society. She is on leave from Oxford to work on the Doctor of Education degree at University of Georgia. Miss Greer was the first woman faculty member in the Oxford College's Department of Health and Physical Education.

David D. Martin has been appointed midwest district manager for animal health products for American Cyanamid's agricultural division. He was farming before joining Cyanamid.

Joyce Campbell Moore (Mrs. Gary I.) has been made head of the Physical Education Department at Loyola University in New Orleans as of September.

Capt. Frances V. Underwood is a dietitian-nutritionist at the Air Force Regional Hospital at Da-

vis-Monahan AFB, Ariz.

Capt. James M. Shipman is stationed at Sumter, S.C.

Capt. Bruce M. Westbrook is attending the Air Command and Staff College at Maxwell AFB, Ala.

Harold M. Harris, Jr., recently completed requirements for the Ph.D. at Purdue and joined the Staff of the Department of Agricultural Economics at Virginia Tech. He and his wife Claudia Hall '62 live in Blacksburg, Va.

ADOPTED: A daughter, Laura Margurite, by Mr. and Mrs. Robert T. Willis (Olivet Summers) of Seattle, Wash. Her birthday is Aug. 26.

BORN: A son, Donald Boone, Jr., to Mr. and Mrs. Donald Boone Harris (Mary Jane Wright) of Baltimore, Md., on Sept. 1. He joins a big sister, Mr. Harris is assistant manager of the Towson office of the Baltimore brokerage firm of Legg, Mason & Co., Inc. . . .

A daughter, Kara DeLane, to Mr. and Mrs. Frank Phillips (Sarah Ellen Barron) of Roanoke on Oct. 4. She joins Mendy, 8, Rich, 7, and Drew, 4.

'62 Capt. James M. Burnett is with Logistics Command at Wright-Patterson AFB in Dayton, Ohio.

A. W. (Bill) Beinlich is project engineer at the Volunteer Army Ammunition Plant at Tynner, Tenn. Mr. Beinlich is also working toward his master's degree in business administration at the University of Tennessee at Chattanooga. He and Mrs. Beinlich (Frances Jones '65) and two children live in Hixson, Tenn.

T. O. Collier, Jr., is the owner-manager of a drug store, Farmers Headquarters, in Hastings, Fla. Mr. and Mrs. Collier have three children: Stacey, 6; Tracey, 5, and Tod, 1½.

Williams E. Rollins is a second officer with United Air Lines based at Los Angeles, Calif. He and his wife Marsha have two daughters, Patricia, 5, and Carol Ann, 2.

Capt. William E. Welch participated in a recent U.S. Strike Command joint air and ground training exercise at Ft. Hood, Tex. Capt. Welch is a pilot stationed at Langley AFB, Va.

Maj. James E. Peguesse is a veterinarian at Hickam AFB, Hawaii, and will be there for two more years. He and his wife (Ellen Fetner) live at Ewa Beach.

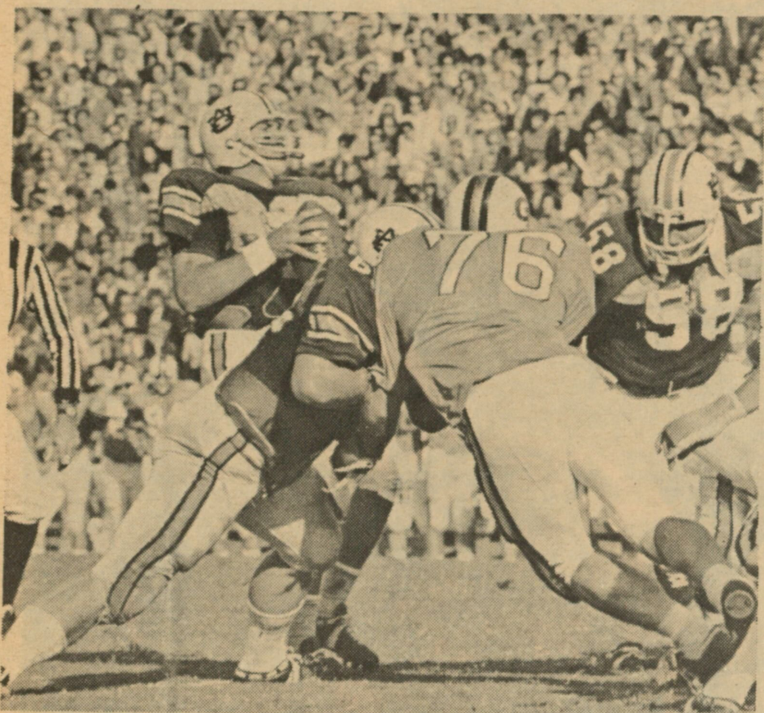

Capt. Wayne Corless is at Auburn University with the Air Force ROTC Department.

BORN: A daughter, Ann Jane, to Maj. and Mrs. David L. Whidden, Jr., (Sarah Phipps) on Dec. 9, 1969. She joins older brother David, III. Maj. Whidden will leave for Vietnam for a second tour in December and Mrs. Whidden will live at Smith's while he is away.

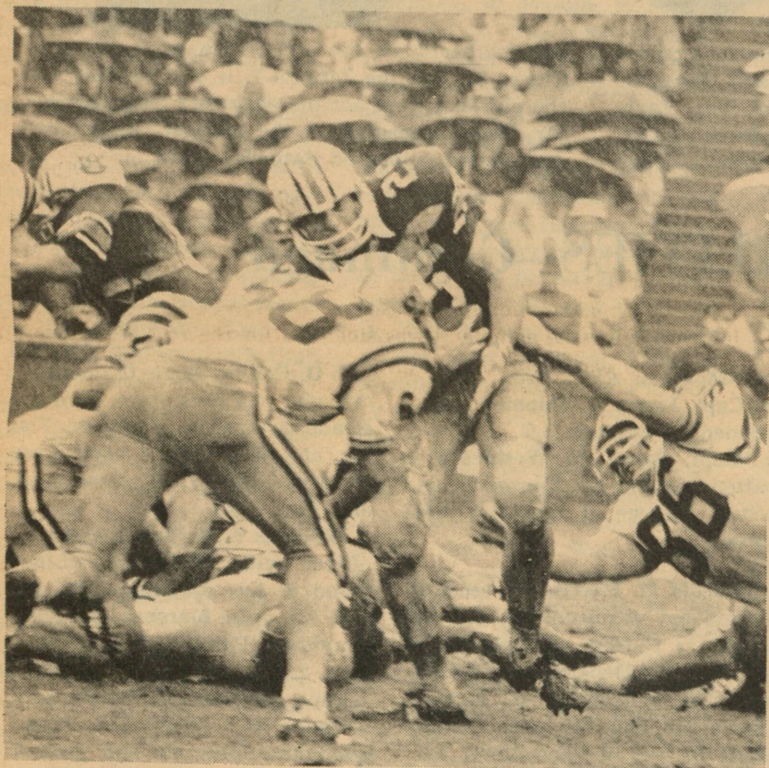

A daughter, Stacie Lynn, to Mr. and Mrs. Jack E. Sadler (Shari Crooks '63) on Oct. 21. She joins big brother Kirk, 2. The Sadlers, formerly in Chattanooga, have been transferred to Richmond, Va. He is planning supervisor with Du Pont.

MARRIED: Rachel Ann Corey '67 to Joel Daniel Hardee on July 27, 1968. They are now living in Monroeville where Hardee is

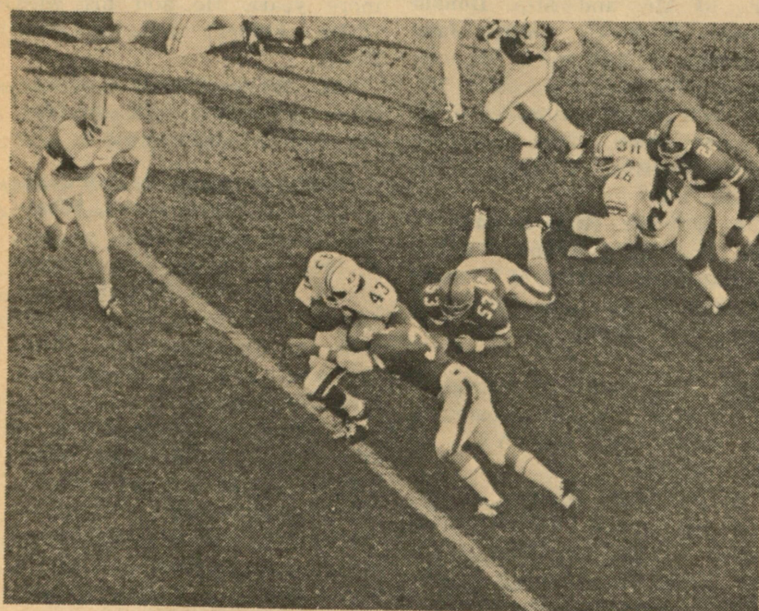

The Big Blue 1970: Riding High, Falling Low

WRECK TECH—Larry Hill and Bill McManus (58) give Super Sully (7) some needed protection from Georgia Tech's All-American Rock Perdoni and team-mate.

RAIN, MUD, TEARS—The LSU Tigers came to town and ruined an Auburn Homecoming and undefeated season in the mud and rain. Here a pile of Louisiana Tigers stop Wallace Clark, a play indicative of a game where Auburn was held from a goal on the 6-inch line.

ALL THE WAY—Auburn's James Owens (43) shook off a couple of Florida Alligators and went all the way down the field for an 86-yard punt return, one of the happiest moments for the Auburn team in its big win over Florida.

Death to Clemson

Riding high on three victories, the Auburn Tigers journeyed to Clemson's famed "Death Valley" to meet the homecoming Tigers of Clemson on Oct. 10. The Auburn 11 won the battle of the Tigers by a score of 44 to 0.

Junior quarterback Pat Sullivan led the War Eagles to a 20-point first quarter lead on drives of 65, 66, and 55 yards before letting the second offense play with the tame cats from Clemson.

Following a 31-yard field goal set up by the second team, linebacker Bobby Woodruff intercepted a Clemson pass and Sullivan and the first offense quickly moved in for a score. The second team finished the half without scoring, and Auburn went to half time with a 30 to 0 lead.

The second string offense added two touchdowns in the third quarter to end the scoring for the day. Terry Henley scored both third quarter touchdowns, on runs of 78 and 11 yards.

The scoring:

AU—Sullivan 13 run, kick failed.

AU 6 Clemson 0

AU—Sullivan 2 run, Jett kick.

AU 44 Clemson 0

Teck Falls Hard

A record-breaking crowd was on hand in Cliff Hare Stadium on Oct. 17 to watch the Auburn Tigers handily defeat the Georgia Tech Yellow Jackets by a score of 31 to 7, the greatest margin of victory over Tech since 1935. As 62,000 fans watched, junior

Pat Sullivan led the Tigers to their fifth win, and had his greatest football day in the process. Sullivan completed 16 of 29 passes for 312 yards and ran for 42 yards in 7 carries for a total of 354 yards. His previous high had been 338 yards in the Tennessee game last year. Included in Sullivan's passing yardage was an 85 yard scoring strike to Alvin Bresler—an Auburn record for a pass play.

For his efforts in the game, Sullivan was named the Associated Press national "Back of the Week."

Sullivan put two touchdowns on the scoreboard in the first quarter, but Tech scored once in the second quarter, and at half-time Auburn held a slim seven point lead.

Coming back in the third quarter, Auburn scored on Sullivan's pass to Bresler, and minutes later on a 30 yard pass to Zofko, again thrown by Sullivan. The Tigers added a field goal in the final quarter to end the scoring in the game.

The scoring:

AU—Sullivan 3 run, Jett kick.

AU 7 GT 0

AU—Clark 4 run, Jett kick.

AU 14 GT 0

GT—Norris 10 pass from Williams, Moore kick.

LSU Upsets Us

Two costly mistakes led to Auburn's first loss of the year on Oct. 24 as LSU upset the homecoming Auburn Tigers 17 to 9, in a rain-soaked Cliff Hare Stadium.

A first quarter fumble at the Auburn 8 led to the first LSU touchdown and a pass interference call in the second quarter allowed LSU its other touchdown.

Auburn was unable to make up for the mistakes and had to settle for three Gardner Jett field goals for the only Auburn points.

Quarterback Pat Sullivan had a great passing day as he completed 17 of 34 passes for 217 yards, and end Terry Beasley caught five passes for 134 yards, but the Tigers could not cross the LSU goal. Auburn's only threat of the day died on the six-inch line with two minutes left in the game as the LSU team stopped Wallace Clark on a fourth and goal play.

The scoring:

LSU—Hamilton 11 pass from Lee, Lumpkin kick.

LSU 7 AU 0

AU—Jett 29 field goal.

LSU 7 AU 3

LSU—Safety, Sullivan tackled in end zone.

LSU 17 AU 9

Back on at Florida

Auburn crashed Florida's homecoming party on Oct. 31 by a score of 63 to 14, the largest margin of victory for the Tigers since 1920, (Auburn 88, Howard 0) and the greatest margin ever over an SEC team.

Quarterback Pat Sullivan had a great day as he passed for 366 yards and four touchdowns, ran for another touchdown, and

STRICKLAND'S OUT—In the Mississippi State Game, Dr. Hughston (back to camera) checks Bobby Strickland's (52) leg. Looking on anxious-

ly, from left, are Herb Waldrop, assistant trainer for Auburn, David Beverly (4), Auburn trainer Kenny Howard, and Neal Dettmering (94).

Big Blue—Rising And Falling

(Continued from page 12)

smashed his own record for passing yards in a season, with 1,727 yards and three games to play. The record was 1,686 yards, set last year.

Terry Beasley, Sullivan's favorite target, caught 7 passes for 176 yards and three touchdowns and ran for a touchdown on an end-around. One of Beasley's scores was an 80 yard pass play from Sullivan.

Auburn's defense aided the Tiger effort by intercepting five Florida passes, four off highly-touted John Reaves and one off Johnny Schnebly, and throwing the Florida rushers behind the line of scrimmage several times. Reaves, Schnebly and Cheney all finished the day with negative yards rushing.

James Owens, the first Negro scholarship player on the Auburn team, returned a punt 89 yards for a touchdown in the third quarter to add to the Tiger victory.

Six Auburn players scored touchdowns in the game and Gardner Jett made all nine extra point attempts.

The scoring:

Stomp State

Auburn beat Mississippi State 56-0 in Birmingham's Legion Field on Nov. 7, but the game cost the Auburn team two defensive standouts — linebacker Bobby Strickland and defensive end Bob Brown.

Pat Sullivan led the Tigers to touchdowns five times before retiring early in the third quarter. Substitute quarterback Tommy Traylor finished the game, and added three more touchdowns in the process.

Although Sullivan played only a little more than one-half the game, he bettered Travis Tidwell's all time yardage mark of 3,820 career yards. Sullivan had 4,078 yards when he left the game. For the record, Sullivan broke the old record on the first Auburn play from scrimmage with a 16-yard pass to Terry Beasley. Sullivan had 222 passing yards, three touchdowns passing, 44 yards rushing and one touchdown rushing when he went to the sidelines in the third quarter.

Linebacker Bobby Strickland sustained a broken leg in the fourth quarter, which ended the Auburn career of the senior. Bob Brown, a junior, went out earlier with torn ankle ligaments.

The scoring:

AU—Zofko 5 pass from Sullivan, Jett kick.
AU 7 MS 0

Georgia Upset

A fired-up Georgia team came to Cliff Hare Stadium on Nov. 14 and defeated the Tigers by playing ball-control offense and heads-up defense when they were pressed. Final score of the game: Georgia 31, Auburn 17.

The Auburn offense, led by quarterback Pat Sullivan, amassed 320 passing yards and 53 rushing yards, but the Georgia defense allowed the Tigers only two touchdowns and a field goal, all in the second quarter.

Georgia took the opening kickoff, marched down the field, and scored. They used up approximately six minutes in the drive, which was indicative of things to come. Throughout the remainder of the game, Georgia played ball control, and finished the day with 219 rushing yards and 115 passing yards while refusing to let Auburn keep the ball for any length of time.

Georgia held split end Terry Beasley to six receptions, four of these late in the fourth quarter, for 94 yards. Alvin Bresler had seven receptions for 112 yards to lead the Tiger receivers in the losing effort.

Alumni In The News

Smith

Vickrey

Dr. Ronald H. Smith '64 was recently appointed assistant professor of biology at Judson College in Marion. Dr. Smith received his Ph.D. degree in zoology-entomology from Auburn University on Aug. 28.

Jim Vickrey '64 is administrative assistant to the Executive Vice President at Florida State University. Mr. Vickrey is also working toward the Ph.D. degree in oral communication. Mrs. Vickrey (Suzanne McLendon '65) is personnel supervisor at Tallahassee Memorial Hospital.

SPIRIT AWARD—Johnny McDonald, All-SEC guard last year, and an almost certain choice again this season, accepts a War Eagle feather from the spirit committee and the students at a recent pep rally. Johnny, a senior from Tusculumbia, received knee injuries during the Tennessee game and was sidelined for the rest of the season. The award was given in recognition of his contribution to the team.

ALUMNALITIES—Continued

'63 Mr. and Mrs. Richard Edward Barrow (Sylvia Scherl) lived in Salt Lake City, Utah, for the past three years where Mr. Barrow was associated with the University of Utah and working on a master's in architectural psychology-philosophy, and Mrs. Barrow taught at a local elementary school. They recently moved to Richmond, Va., where Mr. Barrow is an architect with the firm of Marcellus Wright. They have two daughters, Dawn, 4, and Heather, 10 months.

Capt. Richard S. Moseley is attending Squadron Officer School at Maxwell AFB, Ala. He holds the Distinguished Flying Cross and 11 Air Medals.

Capt. Everett Vincent is with the Air Force ROTC at Auburn. **BORN:** A daughter, Leslie Joy, to Mr. and Mrs. James P. Weston of Montgomery on July 17. She joins sister, Lea, 9, and brother, Jimmy, 7.

MARRIED: Courtney Ann Penn to Marvin Roy Reed on Oct. 3, in Darien, Conn.

'64 Richard (Rick) Charlton, III, graduated from law school at the University of Alabama in August, 1969, as the president of the legal fraternity Phi Alpha Delta, and president of the senior law class. He was also honored by being selected for Bench and Bar. He and his

wife Sandra are now living in Memphis, Tenn., where he is with the firm of Chandler, Manire, Johnson & Harris.

Helga Jean Johnson Prewitt lives in Portland, Ore., and is employed as regional training officer for Head Start.

Mr. and Mrs. Earl A. Lewis (Patsy Payne '67) live in Camden, S.C., where he is section supervisor of Du Pont's May plant. The Paynes have two children, John Edmund, 4, and Elizabeth Ashley, 2.

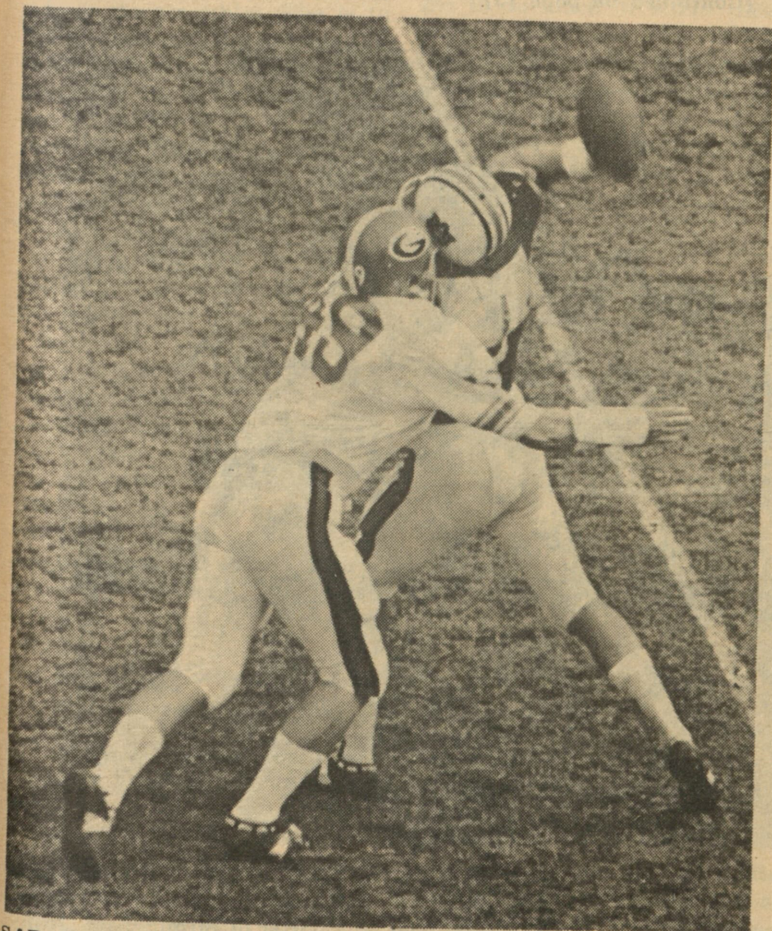

John Claude Miller lives in Chamblee, Ga., where he is with E. & A. Industries.

W. Terry Taylor is senior consultant with the H. B. Maynard & Co., a subsidiary of Planning Research Corp. He is currently acting as temporary training counselor of Maynard's Training Center in Charlotte, N.C. He has been transferred to the new Atlanta office and will relocate there soon.

William A. Corbett, III, is attending Grace Theological Seminary in Winona Lake, Ind., as a student in Christian education, working toward a master's in religious education.

Joyce L. Garrett is a physical education instructor at Atlanta Baptist College in Atlanta.

Roland R. Bickhart is a specialist with the financial planning and analysis section of Gen-

SAD TALE—Georgia's ability to stop the Sullivan-Beasley action and Auburn's inability to hold Georgia led to the Georgia upset which wrecked Auburn's Sugar Bowl hopes.

MOBILE ALUMNI MEET—A whopping 223 "War Eagles" turned out in September when the Mobile Chapter of the Auburn Alumni Assoc. held a barbecue at the Mobile Gas Co. pavilion. Taking prominent parts in the gathering were, left to right, above; Jerry Coggin, vice president of the local organization; Gary Sanders, Birmingham radio announcer, who does the play-by-play for the Auburn Football Network each fall (happily spearing a barbecued chicken from the grill); Charlie Davis, another Birmingham radio person-

nality who has provided the color commentary on the Auburn football broadcasts since 1954; Tyler Turner, Jr., president of the local "War Eagle" group; and Buck Bradberry, former assistant grid coach who is now the associate secretary of the National Alumni Assn. Davis and Sanders entertained the crowd with humorous and interesting sidebar stories related to their broadcasting of the Plainsmen's football contests yearly. James M. Brown, Auburn National Alumni president, was also on the program.

Conference Studies Pollution

Auburn's first annual Alabama Environmental Conference held on the campus Sept. 30-Oct. 1, brought together all areas interested in pollution in Alabama and attracted

some 200 government, business, and industry leaders. Although it reached no solutions, the conference did bring out the varying sides to the question and stretch them out to view. If there was any agreement, perhaps it was to a remark that Dr. Ira Myers, State Health Officer, made in the keynote address: "Each individual must recognize that he is either a part of the solution or a contributor to the problem of pollution, directly and indirectly."—with the qualifying addition that we are all part of the problem.

The most optimistic point of view came from the Auburn Civil Engineering Department's report on "Pollution in Alabama" prepared for the conference. The report indicated that we can solve our pollution problems in five years. Nobody else was that optimistic, however, and

immediately other participants began shooting holes into the report, pointing out, first of all, that there is a shortness of data, particularly in the area of air pollution where only 30 per cent of the industries responded to their questionnaire.

Although others by no means think the situation is hopeless, they stressed that research, testing, laboratories, equipment, and time will all be necessary in correcting those conditions and that the support must come from the people in concrete forms—i.e., money—and power must be given to enforcement agencies to allow them to enforce laws; that cooperation will be needed and is favorable to edict; that the program will be a continuing one; that Birmingham is the most polluted city; and that automobiles cause much of our pollution problem.

Sullivan: Husband, Father, Student, Quarterback

by Carl Warren '71

A man is a conglomeration of life styles and Pat Sullivan is no exception. To the public eye, however, he may seem to be only a football player who comes alive on Saturday afternoon to throw a football to Terry Beasley and Alvin Bresler. But Pat is a husband, a father, a student, a man at ease and a quarterback.

Pat the husband leads a life much like other husbands. Perhaps his pretty wife, Jean, is the envy of other wives because Pat is very helpful around the house. "I take out the garbage and do the laundry sometimes. I do the heavy work for Jean," Pat says. Pat does not mind helping around the house, because Jean is also a student, majoring in Education.

Away From Home

Of course, being a quarterback does take Pat away from home a great deal. "I eat lunch at the dorm (Sewell Hall) every day before practice," Pat says. "Then we practice a few hours, and watch films. I usually get home about seven and eat supper. Jean's a great cook—that's one of the advantages of being married." Pat is away from home every Friday night because he has to stay in the dorm with the other ball players. "We eat supper at the dorm, then all the football players go to a movie. After the show, we all go back to the dorm and play cards until ten o'clock, then we have to go to bed. The next morning we all gather in the parking lot and some of the coaches walk with us to the dressing room. After the game I get to go home."

Away games are much like home games, except there is a long ride back to Auburn after the game.

Pat Proud Papa

Papa Pat is quite different from Pat the quarterback. At home, it is his daughter, Kim, who is the scrambler. Kim is 10 months old and just learning to walk. She manages to get around quite well, and likes to get into anything she can reach. Pat and Jean must divide their attention between whatever they are doing and watching Kim.

Like all fathers, Pat is extremely proud of his child. Although Pat seldom talks about his football skills, he is quick to talk about his baby. "She's a good baby. She always goes to bed at eight or nine o'clock and always sleeps all night. She seldom cries. She's really no trouble at all." Pat is as successful at treating Kim's ills as he is at winning ball games, but in a vastly different way. When Kim falls down and bumps her head, Pat is gentle and soothes his baby and soon has her quiet and playing happily again.

Business Major

Sullivan the student is a business major. "I'm in general business. I hope to have my own business someday," he says. "I don't know what kind of business I'd like, but I think I had rather work for myself than for someone else." A junior in school, Pat is taking three five-hour courses, Personnel Management, Labor Problems, and Geography

of North America, plus a three-hour course, Quality Assurance, and one hour of ROTC, his last ROTC course. "Because of football, my courses are all in the morning," Pat says. "I usually don't study very much unless I have a quiz, maybe an hour or so at night."

Play Pro Ball

Like all college quarterbacks, Pat hopes that his business will be a thing of the distant future. "I want to play pro ball," Pat says. "I don't care who I play for. I used to like the Green Bay Packers when Lombardi was their coach, but I just hope I get a chance to play somewhere. I know I could make it."

Leisure time for Pat is a rarity during football season. Whenever he has a little time, the Sullivans may invite friends over to dinner, or visit with Terry Beasley or some other friends. "Terry and I are real good friends," says Pat. "I can't say that I like him better than anyone else, but we often get together for supper or to watch the Alabama and Auburn games on television on Sunday."

During the season, Pat gets home about seven and goes to bed at ten. His schedule is fairly static. "After supper I study a while, or get together with friends. I usually watch television until about nine o'clock. I like Burt Reynolds' show, 'Dan August,' and I try to always watch Coach Jordan's show." After football season, Pat will occasionally watch Johnny Carson, but during fall quarter he always tries to be in bed by ten.

As might be expected, sports are Pat's hobbies. "I like water skiing and hunting, but I don't get to do much of either these days. I don't have any hobbies like building model airplanes. I guess you could say sports are my hobbies." When he was in high school Pat was a three sport athlete, and won honors in football (Football All-State and All-American), basketball (All-Metro), and baseball (East-West All-Star game three years).

Construction Work

This past summer Pat spent his vacation working. "I did some construction work in Birmingham. I was a general laborer, and building the civic center is pretty hard work."

The best-known facet of Pat Sullivan's life is the quarterback Sullivan. Super Sully, the record-breaking, game-winning, awe-inspiring quarterback from John Carroll High School in Birmingham. Overshadowed last year by voluminous publicity for Ole Miss' Archie Manning and Florida's John Reaves and Carlos Alvarez, this year Sullivan has been named Associated Press back of the week for the SEC more than once, Associated Press national back of the week once, and *Sports Illustrated* back of the week.

With the Alabama game left to play this year and ten games

THE DUO—This prize-winning photo by the Auburn Photographic Services shows Pat Sullivan preparing to pitch the ball and his number one

receiver Terry Beasley waits downfield with his hands outstretched to receive the ball when it comes down field a moment later.

next year it is possible that Pat will break the NCAA yardage record for a career. He now has 4,400 total yards, and the record is 6,568.

Inspires Team

The key to Pat's success on the football field is his confidence. Pat's confidence in himself inspires his fellow teammates. Terry Beasley, one of Pat's favorite receivers, says, "You can put all your trust in Pat. We know he calls the right plays. He is confident and calm, and he knows he can move the ball. In our best game together, against Alabama when we were freshmen, we were behind 27 to 0, but Pat knew we could win and we did, by a score of 36 to 27."

Another of Pat's receivers, Alvin Bresler, echoes Beasley's comments. "Pat is extremely optimistic, on the field he has exceptional confidence in himself. Against Tennessee, we were 10 points behind, but Pat said 'Just block, we're going to score.' Then he threw the bomb to Terry, and we went on to win."

Sullivan's confidence affects his teammates. Again, Bresler speaks of Pat's confidence. "He

is confident, and it helps his receivers. I know he'll throw to me if I'm open. He's good about throwing to all his receivers, which also helps."

Wallace Clark, Auburn's starting fullback, places Pat's success with his lack of worry. "I've never seen him worried, not even when we're losing. He gets concerned when we are behind, but he's never scared worried. He knows how to win, how to come back when we get behind, and he always keeps the pressure on the other team when we get the upper hand. Being behind only makes Pat watch himself more. He is very confident."

Pat's self-confidence makes the coaches job a bit easier. Coach Gene Lorendo, head offensive coach, says, "We just decide on a game plan and present it to Pat. We let him call most of the plays; usually he calls about 95 per cent of his plays."

Pat's performance on the field is also due to his intensive preparation for each game. "Pat spends a lot of extra time on films, studying the defense and asking questions. He is a student of this game, and his own worst critic," says Lorendo.

Now in his second year as starting quarterback, Pat continues to improve with each game. His running game has improved because the coaches want Pat to run more. "We try to get Pat to run as much as he likes," says Lorendo. "Our inside running game is based on Clark and Zofko, and if Pat can fake and go outside, our overall game benefits." The coaches have been successful in getting Pat to run more this year. Last year Pat rushed for a net total of 205 yards. After nine games this year, he has 253 yards.

Another trait which helps Pat win games is his ability to alter his play while it is in progress. Against Georgia Tech Pat called a play which would send Beasley and Bresler on deep pass patterns, then he could pass or run around end. "I started to run, but I noticed that Tech's secondary players were all going after Terry, and Alvin was open, so I threw it to him, and he was several yards ahead of the defenders going into the end zone," says Pat. The play went for 86 yards, an Auburn record for a touchdown pass.

Pat Sullivan

(Continued from page 15)

Although it may seem strange to Auburn fans, Pat Sullivan would like to be the type of man that Alabama's and Green Bay's Bart Starr is. Pat says, "I think he is the type of person I would like to be, in all areas of my life. He is a great football player, and he knows how to lead a team, and he's also a real great person in everything he does, not just on the football field. He leads the type of life I would like."

1/Lt. **Dennis L. Baney** is attending Squadron Officer School at Maxwell AFB, Ala. . . .

MARRIED: **Carol Hayward** to **Charles W. Majors** in Islip, N.Y., on Aug. 15. Charles received his law degree from the University of Virginia Law School in June. He is now an instructor and assistant to the Dean at the University of Virginia Law School . . .

Price Doss

Robert G. Price '66 is quality assurance manager of the Kentucky division of Southwire Co. Mr. Price previously worked as an analyst-industrial engineer with Allis-Chalmers Manufacturing Co., before joining Southwire Co. in 1969. Mr. and Mrs. Price live in Owensboro, Ky.

Larry A. Doss '66 is district sales representative for Alabama, with the Connors Steel Division of H. K. Porter Co., Inc. Formerly, Mr. Doss was district sales representative for Clow Corporation in Kansas City, Mo., and sales representative for the American Cast Iron Pipe Co. in Rockford, Ill.

RETIREES—**William O. Barrow** can spend more time now at one of his favorite interests—growing flowers in his garden, or in one of the two greenhouses he has built. Mr. Barrow, a counselor in Student Development Services, retired in August after 22 years at Auburn. During these years, the desks of fellow workers, as well as the other offices throughout Martin Hall, were brighter because of the different varieties of flowers he distributed. He brought camellias, chrysanthemums, and more often, the hibiscus shown here. One of his plans during retirement is to build a greenhouse for his two grandsons, Tom and Ben Starke of Seale.

2/Lt. **Daniel E. Reeve**, assigned to Mather AFB, Calif., for navigator training . . . **Airman Thomas M. Thorington**, at Keesler AFB, Miss., for training in the administrative field . . . 2/Lt. **Guy V. Bradley, Jr.**, after receiving his silver pilot wings at Webb AFB, Tex., has been assigned to Laughlin AFB, Tex. . .

Mr. Harlan was formerly associated with the Alabama Power Co. as district sales manager in Demopolis. He and his wife, Patti, live in Mobile.

Dean Says 'Involvement And Commitment' Reason—

Home Economics Enrollment Up 70 Percent

by Dru McGowen

Auburn University News Bureau

A 70 per cent increase in student enrollment in the School of Home Economics at Auburn University over the past two years is related to emphasis on involvement and commitment to society, according to Dean Norma Compton.

"We are moving out of our self-contained laboratories and into the community," she says, using as one example a new major, family and child services, which points to a career in any number of social agencies.

Currently enrolled are 633 undergraduates and 46 graduate students for a total of 679. Twenty-five per cent of those receiving master of science degrees awarded at Auburn this summer were home economics students.

Biggest growth has been in the Department of Consumer Affairs, which offered a special fashion merchandising major for the first time last year. Today's enrollment is 206, with field experience available in retail merchandising and fashion.

Family and Child Development majors, which include the new family-child service major, account for an additional 252 students. Students are already getting training at such places as the Center for Developmental and Learning Disorders at the University of Alabama Medical Center in Birmingham, and Auburn Day Care Center.

The next most popular majors include clothing and textiles, nutrition and foods, housing and equipment, home management and family economics, pre-nursing science, and institutional food management.

A recent Career Day acquainted 700 high school and junior college students, as well as those already attending Auburn University, with new and expanding opportunities in the School of Home Economics.

Another inducement to careers

in home economics is today's interest in ecology. It comes from the Greek word meaning house and is a home economics term, according to the dean, who is beginning her third year at Auburn. Said Dean Compton: "President Nixon, in his State of the Union message, pointed out that the truly significant environment for each of us is that where we spend 80 per cent of our time—our homes, our places of work, and the streets over which we pass."

Society does not imprison women in the home, she continued, and home economics research is continually in progress to utilize time and technology for the benefit of all. However, there is emphasis on family relationships, with those relationships being explored in relation to social agencies now taking over functions once relegated strictly to the home. For this reason there is a new direction in Auburn University's School of Home Economics. The areas of study focus on human development, family life, and consumer sciences in tune with technological advances and social changes affecting families and consumers.

The result, she believes, answers the student's plea for relevance in his college curriculum.

Through the choice of electives, Dr. Compton points out, students may continue to prepare for their future roles as parents and homemakers, but the School's primary function today is to train men and women for professional careers in service to families.

Three departments were formed in January, 1969, leading to majors where employment is

LEARN FROM PROFESSIONAL — Students in Auburn University's School of Home Economics participated in a week-long series of seminars in November conducted by Alfred Bach, nationally known fashion lecturer, designer, author and host of ETV's "Shortcuts to Fashion." He demonstrated

garment industry construction and merchandising techniques to students in the clothing design and merchandising classes. Here Bach shows some of the methods he'll be using to Susan Merkel, clothing teacher, at left. Dr. Norma Compton, Dean of the School of Home Economics is at right.

currently offered. And the number of men taking the program has definitely increased.

In Consumer Affairs, headed by Dr. Ruth Galbraith, majors include fashion merchandising, clothing, textiles and related art, with options in clothing, textile design and textile science, housing, interior furnishings, and equipment. Students in these areas are preparing to be consumer consultants for public utility companies, fashion buyers or textile designers for business and industry.

The Department of Family and Child Development is headed by Dr. Joseph Maxwell, with majors in family and child services, family life and early childhood education, home management and family economics. Careers include family-child specialists with social welfare agencies, nursery school or kindergarten teachers, and consumer consultants, to name a few.

The Department of Nutrition and Foods, headed by Mrs. Mildred Van de Mark, offers majors in institutional food management, nutrition and foods, and pre-nursing science. Students majoring in these areas are already in great demand for the ever-broadening food industry and related service institutions such as nursing homes and hospitals.

The School of Home Economics has 30 faculty members with de-

mentary School . . . **Carol Amberson** teaches physical education at Beck Jr. High in Georgetown, S.C. . . .

Mr. and Mrs. **James Francis Maxwell (Betty '67)** live in Eu-
faula where both teach. He is vocational ag teacher at Baker Hill School and she teaches third grade at Western Heights Elementary . . .

grees from universities in all parts of the country. Fifty per cent hold the terminal degree in their fields and all actively participate in workshops and seminars, and as consultants in "human ecology."

Dean Compton shares the diversity of her faculty. She received the A.B. in psychology from George Washington University, the M.S. in textiles and clothing from the University of Maryland, and the Ph.D. in human development from that university. In addition, she has done past graduate work at Catholic University, American University, University of Tennessee, Iowa State University and the University of Iowa. She has been involved at the professional level in every area covered in her school.

Mae Willa Whitaker Mason teaches home economics in Tallahassee . . . **Bill A. Myers**, real estate broker with Luther R. Myers in Montgomery . . . **Mark G. Pierce**, management trainee with West Point-Pepperell . . .

Glenda Paulk Cody teaches eighth grade math at Auburn Jr. High . . . **R. Joseph Frank**, pharmacist at Montgomery Baptist Hospital . . . **William L. Merrill (M.Ed.)** teaches in Columbus, Ga. . . .

Lawrence G. Mayo, III, engineering sales trainee with Cenco Steel in Birmingham . . . **Donna Katherine Barr**, pharmacist at The Johns Hopkins Hospital in Baltimore, Md. . . .

Joseph G. McFaul, junior field engineer with Schlumberger in Lake Charles, La. . . . **Terry Wayne Speake** teaches elementary art in Alexander City . . .

Wallace M. Musick teaches vocational agriculture at Goodwater High in Goodwater, Ala. . . . **Susan V. Merkel (M.S.)** instructor in the Department of Consumer Affairs in the Auburn School of Home Economics . . .

Linda M. Chenoweth teaches at Bullock Memorial School in Union Springs . . . **Charles Arlander Shelnut**, chemical engineer with Tampa Electrical Co. in Tampa, Fla. . . .

CLASSMATES—Mr. Irving Patrick '24 and Robert E. Lambert, Jr., '24 discuss old times, 'specially back in their younger days at Auburn. Mr. Patrick remembers well when a man campaigned for a traditional woman's office on campus because he was campaign manager for a male May Queen at Auburn back in the Roaring Twenties.

ALUMNALITIES—Continued

Elizabeth Whorton McGukin teaches sixth grade in Sylacauga . . . **Mark Allen Smith**, process control engineer with Monsanto in Greenwood, S.C. . . . **Sonja Marie Conner**, pharmacy intern at Chichester's Drugs in Macon, Ga. . . .

John H. Kipp, administrative assistant with McDonnell Douglas in St. Louis, Mo. . . . **Dean Meadows, Jr.**, construction engineer with J. S. Jones Construction Co. in Atlanta . . .

George R. Hopson, manager of the Ranburne Branch of Flowerwood Nursery, Inc. . . . **James A. Humphrey**, industrial engineer with Army Missile Command in Huntsville . . .

Albert Martin Johnson, pharmacist with Watson's Pharmacy in Panama City, Fla. . . . **Sam William Morphew** (Ph.D.), assistant professor in physics at Central State College in Edmond, Okla. . . .

Willard D. Armstrong, Jr., branch representative with Household Finance Corp. in Montgomery . . . **William Townsend Drury, Jr.**, project engineer with International Paper Co. in Natchez, Miss. . . .

Margaret Baile Scott, computer programmer with Blue Cross/Blue Shield of Alabama in Birmingham . . . **Jacquelyn Ridley**, computer programmer with Chapman Drug Co. in Knoxville, Tenn. . . .

Mary Koon (M.S.), instructor in the School of Home Economics at the University of Minnesota in St. Paul . . . **Henry P. Draughon, Jr.**, management trainee with Firestone Tire & Rubber Co. in Montgomery . . .

Edward Hill Shelton, accountant with Plotka & Co. in Birmingham . . . **Tom Rackley**, engineering technician with USDA Cotton Ginning Research Lab in Lelawd, Miss. . . .

Alfred Powell (Ph.D.) senior research chemist with Calgon Corp. in Pittsburgh, Pa. . . . **Mary Nell McCorquodale**, systems en-

gineer with IBM. She has attending an IBM intensive school in computer concepts and implementation techniques in Detroit this fall and will be working in Mobile after December . . .

Philip Wade Thrower, assistant agricultural management specialist with USDA-FHA in Fort Payne . . . **Robert A. Todd**, district forester with US Champion-Plywood in Lawrenceburg, Tenn. . . .

Lawrence Robert Tabor, Jr., assistant manager with Will Ross, Inc. in Chamblee, Ga. . . . **Randy M. Sherrill**, program analyst with Army Missile Command in Huntsville . . .

Tony Hill, science teacher at Sunrise Jr. High in Fort Lauderdale, Fla. . . . **Harold M. Young**, coach of football and wrestling at Sprayberry High in Marietta, Ga. . . . **Richard Lee Camp**, engineer with Alabama Power in Birmingham . . .

James Clarence Denney, teaches social studies at Union Academy . . . **Larry Joe Stephens**, supervisor with WestPoint-Pepperell in Fairfax . . . **Becky Weeks** teaches science at Shades Valley High in Birmingham . . .

William Edward Thornton, coordinator-director of Lee County Civil Defense in Opelika . . . **David S. Thurston**, distribution engineer with Alabama Power Co. in Auburn . . .

Francisco A. Pagan (Ph.D.) fishery scientist and assistant professor with the Department of Marine Sciences at the University of Puerto Rico . . . **Rebecca Braxton** (M.Ed.), guidance director at John Carroll High in Birmingham . . .

John Edward Corner, textile engineer with Courtaulds North America, Inc. in Mobile . . . **Cuyler Allen Dunbar** (Ed.D.), president, Roane State Community College in Harriman, Tenn. . . .

Martha Stuntz McCampbell (M.Ed.) teaches physical education at Auburn University.

IN GRADUATE SCHOOL: At

CAPERS—New officers for Capers the co-ed affiliate of Pershing Rifles at Auburn are left to right: Martha Jane Murr, supply officer; Peggy Dockery, pledge trainer; Louise Siere, commander;

Susie Murrans, executive officer; Joan Mitchell, treasurer; Laura Krieger, public information officer; Debby Adderhold, secretary; Marilyn Molplus, treasurer; and Lyn Cauthen, operations.

Auburn—**Robert Cooper Wilson** in economics . . . **Allison Todd** graduate assistant in the reading clinic, working on a degree in English education . . . **Marion M. (Don) Baker, Jr.**, research assistant in water pollution . . .

Kaye Adrian, in special education . . . **Don Waite Coker**, graduate student in electrical engineering . . . **Nancy W. Miller**, graduate assistant at the nursery school, pursuing an M.S. in child development . . . **William D. Sims**, in business . . .

William M. Barge, Jr., in education . . . **Richard D. Szczepanski**, graduate teaching assistant in mechanical engineering . . . **L. Dean Battles**, in civil engineering now that he's back from Vietnam . . .

Joyce Stephens, graduate student in education . . . **Patrick S. Wagoner**, business . . . **Alton Britt James**, mechanical engineering . . .

Elsewhere: **James William Mills, II**, is a law student at the University of Tennessee at Knoxville in the student personnel program . . .

James Thomas Parham, graduate assistant in the Department of Recreation and Parks Administration, at the University of Georgia . . . **Glenda Mae Parrish**, student at the Emory University School of Medicine . . .

Dan A. McKeever, law student at the University of Florida . . . **Walter C. (Coby) Frampton, Jr.**, has a National Science Foundation Traineeship in the Industrial Engineering Department at North Carolina State University . . .

Robert Clay Owens, graduate school at the University of Tennessee in finance . . . **Clifford Wayne Cleveland**, law student at the University of Alabama . . . **Sharon Douglass Carey**, graduate student in guidance and counseling at the University of South Alabama . . .

Rex Kelly Rainer, Jr., graduate student in industrial and systems engineering at the University of Florida . . . **Joe Dixon Edge**, University of Alabama School of Law . . .

Robert Otwell, Jr., in graduate school at Georgia Tech . . . **Michael McCartney**, graduate student in city planning at Georgia Tech . . . **David James Brand**, sophomore at the University of Alabama School of Dentistry . . .

WITH THE ARMED FORCES: Ens. **Phillip Burroughs**, NAS Jacksonville, Fla. . . . 2/Lt. **Darcey Tatum, III**, with the Army . . . Ens. **James Daniel Harris**, with the U.S. Navy, deployed from San Francisco . . .

2/Lt. **Robert C. Sherrer**, assigned to Mather AFB, Calif., for navigator training . . . 2/Lt. **Douglas David Tyler** with the Marine Corps at Quantico, Va. . . . 2/Lt. **William R. Cooper**, with the U.S. Army . . .

Am. **Warren L. Evans**, assigned to Shepard AFB, Tex., for aircraft maintenance training . . . 2/Lt. **William E. Webb, Jr.**, pilot with the Air Force . . . Pfc. **Waylon Lee Spurgeon**, Army National Guard . . .

2/Lt. **Charles J. Grant**, pilot training at Laredo AFB, Tex. . . . 2/Lt. **Danny Lloyd Dawson**, pilot training with the Air Force in Columbus, Miss. . . . 2/Lt. **George Stuart Schoppert, Jr.**, stationed with the Army at Ft. Lee, Va. His next assignment will be at Ft. Rucker, Ala. . . .

Gilford C. Dudley, Jr., with the Alabama Air National Guard . . . Ens. **Thomas Alan Seitz**, now serving with the Navy . . . **David Arthur Holcomb** will report

to Lackland AFB, San Antonio, Tex., for Air Force OTS on Jan. 8, 1971 . . .

Alan Wisdom, assistant project engineer with the Army in Chicago . . . 2/Lt. **Dannie Earl Tennimon**, stationed with the Army at Ft. Benning, Ga. . . .

Capt. **Jasper Lee Booker**, station veterinarian at Albany Naval Air Station in Albany, Ga., and attending veterinarian at the Marine Supply Center, also in Albany . . .

2/Lt. **Clinton D. Allison**, working toward a master's in Aerospace engineering at the Air Force Institute of Technology . . .

2/Lt. **Walton A. (Cy) Sineath, Jr.**, now stationed at Lawton, Okla. He will go to Vietnam in January . . . 2/Lt. **Richard E. Hethcox**, stationed with the Army, will be sent to Vietnam in December . . .

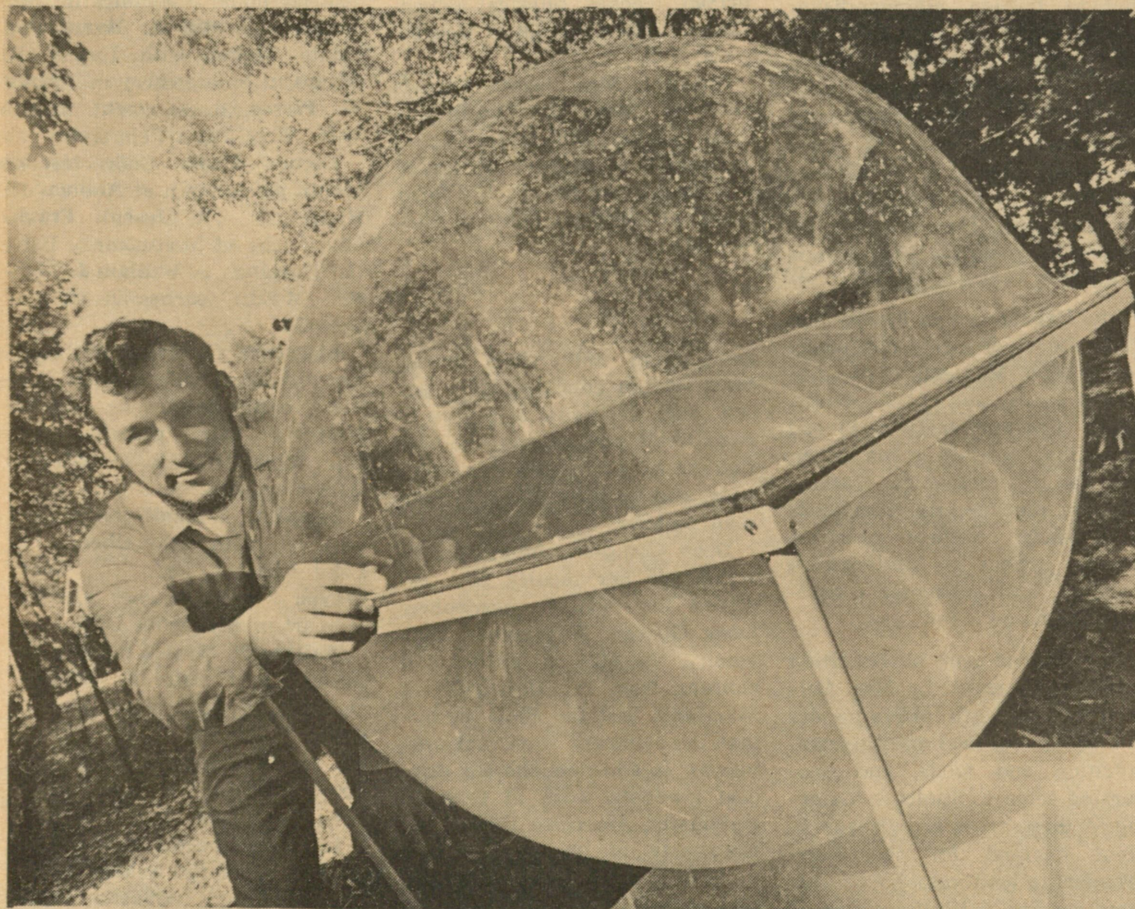

MARRIED: **Deena Carr** to Donald Allen Hanke on Sept. 24 in Oak Harbor, Wash. They live in Oak Harbor where he is stationed with the Navy . . . **Anna Carol Hollar** to **Frederick Patton Douglas** on Sept. 5. They live in Columbus, Ga., where he is a management trainee with J. C. Penney Co. . . .

Ann Carter to Michael Williamson in Scottsboro on Aug. 7. They live in Scottsboro . . . **Della Josephine Hayes** to **Woodrow Preston (Bo) Prewett, Jr.**, in Adamsville on Sept. 1. They live in Adamsville. Bo is a collector with Engel Mortgage Co. in Birmingham . . .

BORN: A son, **Thomas Ivy, Jr.**, to Mr. and Mrs. **Thomas I. Brannan** of Northport on Sept. 21. Tom is band director at Northport Jr. High . . . A son, **Craig Steven**, to Mr. and Mrs. **Steven C. Hudgins** of St. Petersburg, Fla., on Sept. 4. Steven is controller with Hudgins Tool & Die Co., in Pinellas Park, Fla. . . .

A daughter, **Auburn Lynn** to Mr. and Mrs. **Kenneth Perrigin** (Barbara Wallace) of Auburn on Sept. 27 . . . A son, **Neal Kumar**, to Dr. and Mrs. **Murli Manohar Prasad** on Sept. 20. Neal joined brother **Praveen**, 7, and sister **Madhuri**, 2. Dr. Prasad is an assistant professor in the School of Veterinary Medicine at Tuskegee Institute . . .

A daughter, **Jennifer Appleton**, to Mr. and Mrs. **Ken Payton** (Janet Appleton Payton) of Opelika on May 16. Janet is teaching with the Opelika City Schools.

ART & ECOLOGY—Auburn Art Instructor Conrad Ross is shown with "Ecological Construction," a vacuum plastic bubble three feet in

diameter. The bubble contains sterilized pond water and algae. The project won Ross a special award for originality in Atlanta.
